VOL. 49. VICTORIA, B. C., FRIDAY, AUGUST 11, 1916 NO. 35

ANOTHER RUSSIAN VICTORY IN GALICIA

GENERAL HAIG'S MEN GAINED MORE GROUND NORTH OF THE SOMME

Took Trenches on Short Front North of Bazentin-le-Petit and Repulsed Counter-Attack; Advanced Line Slightly Northwest of Pozieres; French Got Some Prisoners and Machine Guns

London, Aug. 11.—North of Bazentin-le-Petit and northwest of Pozieres, north of the Somme, British troops have made further progress, it was announced officially to-day.

The text of the announcement follows:

"North of Bazentin-le-Petit, north of the Somme, we made further progress, taking a short length of trenches and inflicting considerable loss on the enemy. At 4.45 a.m. the enemy made a determined counter-attack on the trenches captured by us. This attack was repulsed with further heavy losses to the enemy.

"Northwest of Pozieres we also advanced our line slightly at certain places."

Paris, Aug. 11.—The French have opened a heavy bombardment of German positions north of the Somme, according to a statement issued by the war office this afternoon.

On the left bank of the Meuse French troops took some prisoners in a raid on German trenches east of Hill 304. On the right bank of the Meuse there was skirmishing with grenades about the Thiaumont work.

On the rest of the front cannonading was intermittent.

The text of the statement follows:

Heavy Bombardment.

"North of the Somme our artillery directed a destructive fire against the defences of the enemy. In the course of our operations we took prisoners and captured two machine guns in the small wood north of Hardecourt.

"On the left bank of the Meuse (Verdun front) we made a surprise attack on a German trench east of Hill 304 and brought back prisoners. On the right bank of the river there was the usual artillery fighting, as well as skirmishing with grenades northwest of the Thiaumont work.

"On the remainder of the front intermittent artillery fighting occurred.

"On the night of August 9-10 French aerial squadrons bombarded the railway station and barracks at Vouzieres and the station at Bazancourt."

TRADE COMMISSION HAS BENEFITED

President of Canadian Body Says Visit to Europe Very Valuable

London, Aug. 11.—Speaking at a conference of business men, J. W. Woods, president of the Canadian Trade Commission, stated that the impressions the members of the commission had derived from their visit to Europe would be of great service to them in arriving at a wise conclusion on fiscal matters.

There could be no doubt that after the war the United States and Japan would be able to manufacture so cheaply that Great Britain would have to reconsider her position in France and Italy. The prevailing idea was that there should be a triple tariff, highest for Germany and her associates and lowest for the allied nations. The middle tariff would be for neutrals.

Great Britain should declare her policy now. A question of such magnitude as the tariff ought to be taken out of politics and dealt with in a sensible and scientific way.

The adoption of free trade by Canada was quite out of the question, he added.

Vice-President Wardleworth related how when Canada had given a preference to the mother country, Germany had replied by putting a heavy surtax on Canadian exports to Germany, whereupon Canada had put a stunning surtax on German goods. The result had been that in one year German exports to Canada had shrunk 60 per cent.

After the war there would be serious labor problems in the United Kingdom. He thought they would be solved by fiscal reform. Only in this way could trade be retained.

ITALIANS CHEERED ENTERING GORIZIA

Life Began to Become Normal Again Almost Immediately, Writes Correspondent

Paris, Aug. 11.—"Entering Gorizia by the Via Leone, the sight that meets the eye is most striking," telegraphs the Petit Parisien's correspondent on the Isonzo front.

"It was there that a furious battle was fought for the possession of the city. The houses are half destroyed by shells or riddled with bullets. The ground is strewn with bodies, uniforms, helmets and rifles. The artillery duel continued above head and enemy aeroplanes whirled across the sky, shot at by the Italian gunners, while in the distance could be heard the furious clacking of machine guns.

"The spectacle before us was superb. Over an iron bridge the Italian batteries passed at a trot. The Austrian artillery sent towards them whirlwinds of shells, the smoke from which completely blotted out the Italian column from time to time. When the smoke blew away one could see the batteries still proceeding on their triumphant way. The men of the line regiments yelled, wept and clapped their hands in their enthusiasm. Some of the gunners fell wounded, but the bridge was passed and the Italian guns began to get near the enemy.

"As soon as one passed the first houses and got into the city the aspect of things changed completely. Normal life was resuming its course and if it had not been for the echoes of the struggle, one would not have known that a battle was in progress nearby. In Carso, one of the principal streets, a big cafe was open, filled with officers and civilians, the troops and citizens fraternizing freely in their joy over the Italian entry into the city. The Italian flag floated from the windows of all the houses.

"The population has almost all returned, for it had not fled. The Austrians forced the inhabitants to leave the city itself, but they remained scattered throughout the environs of the place, awaiting the retreat of the enemy to make their way back."

A GERMAN STATEMENT ABOUT AIRMEN'S WORK

Berlin, Aug. 11.—Successful attacks by German air squadrons on British war vessels off the Flemish coast and on Russian aviation stations on the island of Oesel, off the Gulf of Riga, are announced in an admiralty statement issued to-day, the text of which follows:

"A squadron of our seaplanes on the afternoon of August 9 successfully attacked with bombs British monitors and light sea forces off the Flemish coast, obtaining several definitely established hits.

"On the same day the Russian aeroplane stations at Aerensburg and Lebara, on the island of Oesel, were attacked by several German air squadrons with good results, a number of hits being observed."

DELIVERING HEAVY BLOWS FOR ENTENTE; GEN. COUNT CADORNA

ALLIES NEED ALL COPPER U. S. OFFERS

Negotiating for Entire Amount Americans Will Export Next Year

New York, Aug. 11.—Wall street heard to-day from reliable sources that representatives of Great Britain, Russia and France are negotiating for the entire exportable surplus of American copper for the year 1917, and that the price is the only question that remains to be settled.

A flat offer of 21 cents a pound has been refused. The bid price has been raised, but is still below the figures fixed by the producers. This quotation is said to be close to 25 cents a pound.

The ministry of munitions of the Russian government has just closed a contract for 10,000,000 pounds of copper, to be delivered in the last three months of this year, and is negotiating for the delivery of an additional 10,000,000 pounds during the first quarter of next year.

VENIZELOS WILL BE RETURNED TO POWER IN GREECE; ALREADY PLACING MUNITIONS ORDERS TO AID ALLIES

Athens, Aug. 11.—"The trouble in Greece is not over," said a neutral diplomatist to the Associated Press correspondent here to-day. "As a matter of fact, it is only just beginning. King Constantine can not logically accept the result of the forthcoming general election calmly, for the indications are the election means the return to power of Venizelos. And Venizelos is determined, even if he should have to change the constitution of Greece to do it, to make it impossible for all time to come for a sovereign in Greece ever to take the reins of power into his own hands as Constantine has done. For King Constantine to accept this is equivalent to abdication—and I believe he will actually abdicate before he will do it.

"What is a still more bitter pill for the king to swallow is that in all probability the return of Venizelos would mean the entry of Greece into the European war on the side of the entente powers. They say that Venizelos and his followers already are placing orders for the necessary munitions and armament for the Greek army in preparation for that development. Can you see Constantine leading his men against the forces of his brother-in-law, Kaiser Wilhelm, while Venizelos, whom he regards as his arch-enemy, governs the country in the royal name?

"Considering the attitude of the king up to now, it seems only logical that he must resist by every possible means the return of Venizelos to power and all that return entails. After all, the king has put himself in the position of the leader of a political party, and if he loses he may find that the sole consistent course to follow is that incumbent on a political leader who has lost—retire to private life."

THIRTY-ONE ATTEND CAN. NAVAL COLLEGE

Classes Are Full for Term Which Opens This Week

Ottawa, Aug. 11.—The Canadian Naval College at Halifax, which opens this week, will have a full attendance of 31, this being the limit of accommodation at the college. As usual, nine commissions in the imperial navy will be given this year by the admiralty to graduates of the college.

The department of marine and fisheries takes exception to a statement made in a bulletin issued recently by the Conservation Commission to the effect that there has been a decrease in the returns of the fisheries of the Dominion. On the contrary, it says, there has been an increase in the catches on both the Atlantic and the Pacific coasts.

CASUALTY LIST GIVEN OUT AT OTTAWA TO-DAY

Ottawa, Aug. 11.—The following casualties were announced to-day:

Infantry.

Died of wounds—Pte. George Low, Lieut. John Melly.

Previously reported unofficially, now officially, wounded and prisoners of war at Stendal—Pte. C. S. Jackson, Pte. Charles McKinnon.

Previously reported unofficially, now officially, wounded and prisoner of war at Schen—Pte. J. A. Dickson.

Previously unofficially reported wounded and prisoner of war; now officially reported wounded and prisoner of war at reserve lazarette, Aachen—Pte. Hugh McAngus.

Previously reported missing; now officially reported prisoner of war at Aachen—Pte. S. G. Barrington.

TURKS WISH SYRIAN CHRISTIANS TO DIE

Refuse to Allow Americans to Send Relief to Starving

Washington, Aug. 11.—Turkey has refused to grant the request of the United States that a neutral committee be permitted to undertake relief work in Syria, where thousands of native Christians are reported to be starving.

Charge Miller, at Constantinople, in a cablegram received at the state department to-day, said the Turkish government had informed him that relief operations in Syria were considered unnecessary because the crops there were better than anywhere else in the Turkish empire. He added that although he was told the decision was final, he had not dropped the subject, but would continue to press for favorable action.

On July 5 the department instructed Charge Miller to call attention to the fact that there had been no action in this matter, and to say to the Turkish foreign office that continued failure to heed the request would put a severe strain on the relations between the United States and Turkey.

EXPLORER STEFANSSON AT HERSCHELL ISLAND SOON

Ottawa, Aug. 11.—Officials of the naval service department expect that if Explorer Stefansson carries out his plans he will arrive at Herschell Island some time this month. Owing to the fact that the wireless service is out of commission in the far north he is not likely to be heard from until he arrives at Nome.

Stefansson has been absent for three years.

HONORED BY S.O.E.

Halifax, Aug. 11.—J. D. Proctor, of Toronto, was elected by acclamation this morning president of the supreme lodge of the Sons of England, now in session here.

ITALIAN AND CZAR'S FORCES CONTINUE DRIVING FORWARD; STANISLAU HAS BEEN TAKEN

TOOK STATION, HILL, FROM BULGARIANS

Anglo-French Troops Dislodged Enemy From Two Points Near Doiran

ARTILLERY FIGHTING STILL IN PROGRESS

Paris, Aug. 11.—An attack by Anglo-French forces on the Bulgarians near Doiran, on the Serbian-Greek border, 40 miles northwest of Salonica, is reported in a Havas dispatch from Salonica. The allies occupied the Doiran railway station, five miles east of the town, and a neighboring hill, known as Hill 227, south of the town of Doiran.

In front of the captured positions, the dispatch says, the bodies of numerous Bulgarians were found. The attack was preceded by a vigoross bombardment.

At other points along the front artillery fighting continues, with patrol engagements along the Serbian border.

There have been several small engagements recently along this front as well as frequent heavy artillery battles. A general offensive movement by the entente troops, based on Salonica, reported to number nearly 700,000, has been expected for several weeks. The engagement near Doiran, however, apparently was a minor affair.

VON HINDENBURG'S COMMAND CUT DOWN

Did Not Control All German-Austro-Hungarian Armies in East Long

Berne, Aug. 11.—The directing power of Field Marshal von Hindenburg, who was placed in supreme command of all the Austro-German armies on the eastern front, has been curtailed, according to a dispatch received here to-day, which sets forth hidden passages of the military history of the central powers. Emperor Francis Joseph of Austria was persuaded to give over the control of the Austro-Hungarian armies in the eastern theatre to von Hindenburg, and the German field marshal assumed complete and absolute command. After a few days the armies in the southern half of Galicia were taken out of the control of the German officer and placed under Arch-duke Charles.

BERLIN HAS ADMITTED ROTTWEIL BOMBARDED

Berlin, Aug. 11.—"On the night of August 7 enemy airmen dropped several bombs on Rottweil, Wurttemburg," says an official statement issued here to-day. "A dwelling house was hit and several persons were wounded. No military damage was done."

An official French statement of Wednesday afternoon reported that a French aviator, flying 217 miles between 8.30 p. m. and 11.50 p. m., dropped 330 pounds of explosives on the powder factory at Rottweil, causing two extensive fires and several explosions.

THREE KILLED.

Wilmington, Del., Aug. 11.—An explosion which blew out a cylinder on a rehydrating press at the du Pont Powder Company's plant at Carney's Point, N. J., to-day, killed three workmen and injured two.

Entire Doberdo Plateau in Hands of King Victor's Troops; Russians Advancing in Sereth Region; Have Entered Monasterzyska and Reached Right Bank of Bystritza; Fall of Stanislau Announced

Rome, Aug. 11.—Italian forces have occupied the entire Doberdo plateau, the war office announced to-day.

Rubbia and San Martino del Carso also have been captured, and Italian troops have reached the line of the Vallone river. The Austrians have retired to the east of the town of Vallone.

Petrograd, Aug. 11.—Stanislau, an important rairoad centre southeast of Lemberg, capital of Galicia, has been occupied by Russian troops.

Petrograd, Aug. 11.—Russian troops are advancing on the Sereth river in Galicia, the war office announced to-day.

Russian troops have entered the town of Monasterzyska, 22 miles northeast of Stanislau, 20 miles east of Halicz, and 14 miles east of Mariampol. Fighting is continuing in Monasterzyska.

Other Russian forces have reached the Dniester south of Mariampol, which town is eight miles southeast of the important town of Halicz and ten miles north-northeast of Stanislau, and have advanced to the right bank of the Bystritza river, a branch of the Dniester, which joins that river from the south near Mariampol.

In the fighting of August 8 and 9 about 5,000 Austrians and Germans were captured.

The statement says:

Fierce fighting is continuing on the river Stockhod, Volhynia, in the regions of Mihliabaczy, the village of Vuliki Lubaozvska, the town of Stobyvy and the village of Zarocz.

In Sereth Region.

"On the river Sereth our troops are advancing as a result of fierce fighting. The enemy is making a desperate resistance, alternating between defensive actions and counter-attacks. Notwithstanding the enemy's efforts to stem our advance, our gallant troops under General Sakharoff by a series of repeated attacks pushed the enemy out of villages and woods on the right bank of the river, and have reached the ridge commanding the heights. They are fighting before the village of Trosianecnesgrovce. We took there 2,500 men and the commander of an Austrian regiment with the entire regimental staff and chaplain.

Left Bank of Zlota Lipa.

"In a westerly direction our troops reached the left bank of the Zlota Lipa, capturing during the engagement the village of Lazaruvka and capturing more than 1,000 Austro-Germans. One of our Orenburg Cossack regiments launched there a cavalry attack, taking more than 200 prisoners and capturing three machine guns.

"A German regiment, having crossed the river Zlota Lipa near the village of Zadaruv, attempted a counter-attack on a position we had occupied, but was repelled with enormous losses. Our brave cavalry detachments, having forded the mouth of the river Zlota Lipa, attacked and repelled the enemy, and pursuing him, reached the left bank of the Dniester in the bend to the south of the village of Usciezielone (southwest of Monasterzyska).

"The total number of prisoners taken during the battles of August 8 and 9 amounts to 5,000."

German Admission.

Berlin, Aug. 11.—The Austro-German troops in the region of Monasterzyska, at points on the Dniester and in the Bystritza river, region of Galicia, were compelled to give way because of the superiority of hostile forces at some places, says an official statement issued to-day.

Counter-attacks brought the engagements to a standstill and a re-grouping of the Teutonic forces now is taking place.

A FEW WORDS FROM COUNT REVENTLOW

German Fire-Eater Tries Another Thrust at the United States

Berlin, Aug. 11.—Count von Reventlow, associate editor of the Deutsche Tages Zeitung, writes:

"Wherever and whenever a voice has been raised in the United States since the beginning of the war, without exception, it has cried: 'Germany must not conquer, must not be too powerful.'

"This attitude is partly due to the growing conviction that the Panama Canal is a failure and never will be available for battleships, and thus the United States has more to fear from Japan.

"Had Americans really desired freedom of the seas it would have been in their power to secure it, but the United States has placed itself in opposition to the German empire for fear it might harm, or indeed, annihilate, British-American traffic."

UNKNOWN VESSEL CALLED NEW YORK

Some Operators Thought Messages Came From German Submarine Bremen

New York, Aug. 11.—Wireless observers at the shore stations near New York were puzzled early to-day by signals received from an unidentified vessel apparently somewhere off Sandy Hook which was calling the Telefunken Wireless station in this city. The fact that the stranger refused to disclose her identity led some of the wireless operators to believe they were at last in communication with the long-expected German submarine Bremen.

While in communication with the shore stations a few hours earlier the stranger reported herself only as a collier and the operator on board signed his calls "D. B. U.," which is the private wireless signal of the North German Lloyd steamship Breslau, last reported as tied up in New Orleans for the period of the war.

DISMISSED FROM SERVICE.

London, Aug. 11.—Honorary Captain Tremayne, temporary paymaster, of the 52nd Canadian Battalion, has been dismissed from the service on sentence of a courtmartial.

SIR GEORGE FOSTER ON WAY TO CANADA

London, Aug. 11.—Sir George Foster has sailed for Canada after giving a farewell address to representatives of the commercial industries and agriculture of Liverpool and its district. It is not expected that Sir George Perley will leave Canada for England before Sir George Foster has reached Canada.

WERE NO CHANGES ON ANGLO-FRENCH FRONT

British Dispersed Some Detachments of Germans South of Martinpuich

London, Aug. 11.—The following official statement was issued last night:

"The position is unchanged along the whole of the British front.

"Some parties of the enemy advancing against our lines south of Martinpuich were effectively dealt with by our trench mortars and machine guns, and no hostile attack developed.

"Our aeroplanes continued bombing operations against army billets and other points of military importance.

"In the course of many aerial combats yesterday several enemy machines were driven down in hostile territory. Three of our machines have not returned."

Paris, Aug. 11.—The following official statement was issued last night:

"Except for somewhat spirited cannonades north of the Somme and in the region of the Thiaumont work, east of the Meuse, the day was calm along the whole front. Bad weather continues to interfere with operations."

A Belgian statement said:

"There was some activity on the part of the German artillery at various points on our front. Our batteries carried out successful shelling of the sector of Steenstraete and farther to the south."

BILLY SUNDAY SPOKE AT VANCOUVER LAST NIGHT

Vancouver, Aug. 11.—At a great prohibition rally at the Arena Rink last night Rev. Billy Sunday was listened to by 9,000 people. After an enthusiastic reception he dived straight into his subject.

After some fifteen minutes a number of people at the back of the rink, who probably were unable to hear the speaker, began to leave. Mr. Sunday, snatching up the Bible, strode to the back of the platform, declaring: "If you won't keep quiet I will quit." After a quarter of an hour he was induced to return. Taking off his collar and coat, he silently faced the audience, and was greeted with jocular remarks. He finally continued his speech, which bristled with statistics.

BREWSTER HAD BIG KELOWNA AUDIENCE

More Than 600 Heard Him, Macdonald and L. V. Rogers Speak

Kelowna, Aug. 11.—There was a magnificent meeting in the opera house last night, when more than 600 people sat for over three hours of a sultry evening and listened to Mr. Brewster, Mr. Macdonald and Leslie V. Rogers, Liberal candidate in South Okanagan, as they expounded the Liberal policies and criticized the record of the government. This is the home town of the Liberal candidate, who was cheered for several minutes when he was called on to speak. The sentiment in Kelowna is distinctly Liberal. Alderman Sutherland was chairman.

The wait while the audience was gathering was enlivened with music, and when the leader and his lieutenant arrived the player struck up "See the Conquering Hero Comes," which brought a storm of cheers from the audience. At the close of the meeting there were cheers for the three chief speakers.

Yesterday forenoon the party was driven over fine roads between richly-bearing orchards for 45 miles, and midway in the drive a stop was made at Rutland and Ellison. At that point over 100 persons had gathered in the Rutland school house. The visitors were promised by Mr. Rogers and F. R. Dehart that they would get a farmers' cold lunch. What they actually partook of was really a banquet, excellent in quality and variety, and deftly served, for which thanks were freely given to the women of Rutland and Ellison district. A short meeting was held afterwards, at which the leaders and the candidate spoke briefly.

Brewster Cheered.

Mr. Brewster was cheered at frequent intervals as he dealt with the land question, finances, the writ and the Vancouver by-election, among other matters. There was a mighty cheer when the leader declared that there was not an angle of the plugging story he or Mr. Macdonald was not willing to discuss, and one man shouted "Good boy." What Mr. Brewster had to say about patronage and his determination to smash the machine proved very popular.

Mr. Macdonald spoke of himself as an instrument for the flaying of the government on February 26, and when he said he would be one of the instruments to flay the government again on September 14, he was applauded to the echo.

None for Irrigation.

Mr. Rogers, alert of mind and a bright speaker, reminded the people of Kelowna that while the government had money for all sorts of extravagances, it had none for irrigation. He referred to the fact that the Conservative committee rooms have for "blinds" copies of a Vancouver gutter-snipe journalistic venture, chockfull of deliberate lies and misstatements.

Dr. K. C. Macdonald, Liberal candidate in North Okanagan, had come down from Vernon, and spoke briefly in support of Mr. Rogers.

Greatest Problem.

In a district which is absolutely dependent upon water for its existence as a cultivated area, the immediate local problem is that of irrigation. On this subject several deputations have waited upon Mr. Brewster and Mr. Macdonald to represent their positions. It has been recognized by them that the future ministers can not give pledges to do what is asked of them, but they have been very anxious to obtain from Mr. Brewster some assurance that the policy of his government will be such as to maintain the prosperity of the Okanagan. The leader on each occasion has pointed out that he is not making any pre-election promises and that in a problem such as this many details have to be considered carefully before any policy can be evolved, but he has had no hesitation in expressing the opinion that no government would be doing its duty which allowed fruitful lands to become derelict and that in the matter of irrigation there is the broad principle that the government must stand behind the supply of water.

Serious Situation.

The situation confronting the settlers hereabouts is a serious one. Of the two irrigation companies, one is in liquidation and the other is about to apply for the appointment of a receiver, and as neither has funds for operation, they will be unable to supply water next year. It is doubtful if there will be any domestic supply during the approaching winter. It is likely that the growers of Kelowna and the surrounding district will form a water municipality as the only way out, which will mean necessary government assistance in some manner. Already the Bowser candidate and his supporters are playing politics with this question, as with every other, and efforts are being made to get the premier on his coming visit here to promise that the government will take over the irrigation works. In view of the record of Mr. Bowser in the last few months, it will surprise no one here if he makes an announcement to that effect for election purposes while in the Okanagan ridings.

ARGENTINE GUNBOAT BLEW UP; DEATHS

La Plata, Argentina, Aug. 11.—An explosion occurred to-day on the Argentine gunboat Rosario. The boilers blew up and several men were killed.

Have you smoked "Noblemen" Cigars lately?

BRYSON WILL BE LILLOOET MEMBER

What Mr. Brewster and Mr. Macdonald Found In That Constituency

Clinton, B. C., Aug. 4. — Passing through Lillooet constituency Mr. Brewster and Mr. Macdonald had the same cordial reception and successful meetings as at all other points farther north. Although Archie McDonald, the late member, is very popular, it is conceded generally that he will be defeated by John B. Bryson, of Pavilion, the Liberal candidate. In any case Lillooet is more Liberal than otherwise, as its political history shows.

John M. Yorston came on with the party to this town, and spoke for Mr. Bryson with the leaders. From here he returned north and will tour at once the Chilcoten portion of the Cariboo constituency.

Pleasant Spot.

150-Mile House is a pleasant little spot, with government offices, court house and school, and several charming homes. At this point the Fraser is many miles to the west, the road taking a wide sweep which keeps it away from the river until after Pavilion Mountain has been crossed and it dips down on the other side. The country is open, almost level, and the mountains are very far away. Irrigation is a necessity in this country; without it no remunerative returns can be had except in occasional favored spots, but with it splendid crops are grown. No more beautiful farming scene could be witnessed than is presented by such ranches as Mr. Yorston's or Mr. Bryson's seen from above as the road winds down to them.

The meeting held at that point in the school house, brought out 47 people, a record attendance for a public meeting there. Louis J. Crossin was the chairman.

Fish While Skating.

The constituency of Lillooet is entered soon after passing 140-Mile and the Murphy homestead of Lach la Hache, where John Murphy lives. In Lac la Hache, by the way, there are a couple of bays where one can fish while skating. These have shallow sandy bottoms, and after the first freeze in the winter it is possible to drive fish into these shallows by skating above them, and spear them through the ice. A noon-hour meeting was held in McKinley's, 115-Mile House, attended by two dozen settlers.

Below the 100-Mile House the country becomes much drier, wormwood and sage brush cover the ground, and the timber thins out. In passing it may be explained that there is no falling off in the number of forest and fire rangers in such a district. There are as many where the timber is sparse as where there are large areas of merchantable timber, and in all districts there are more of them this year than ever before.

The 100-Mile House is at the foot of a four-mile hill, a long climb for a car. The highest point on the old road south of Quesnel is passed at 95-Mile, 4,500 feet, but a newer road has been built just along there, and on this the high point is at 96-Mile, slightly lower than the old mark. At 61-Mile is a canyon of gloomy grandeur, 900 feet deep and running with varying depth for ten miles. Strange to say, there is no stream running through it, but there are several tiny lakes, and at the foot of the canyon runs the Bonaparte river.

To Lillooet.

At Clinton the old Cariboo road runs off southwest to Lillooet and the mileposts give the distance from the latter place, but as it is 12 miles nearer than Lillooet, the old names of the road houses do not correspond. Thus, 150-Mile House is 138 miles from Ashcroft.

The old road houses on the road are mostly ranch buildings, but all kept, and still kept, open house. Anyone who finds himself and his beast, or the modern car, at nightfall near one of these places has no difficulty in securing a lodging for the night, and abundant fare at the common table.

Mr. Bowser, who passed Lac la Hache on the run, spent but 20 minutes here, and spent that short time closeted in private with some of the government officials and Conservative Association officers. As a matter of fact, he did not address a single meeting in Lillooet, and he also "passed up" Yale constituency. His candidate, Archie McDonald, took to the woods on the eve of the liberal visit—to the significant locale of Deadman's river, to be precise.

Bryson the Man.

It would not have made any difference, though, if he had stopped over and spoken. The return of the Liberal candidate, J. B. Bryson, is assured. What Conservative money is being wagered is being placed on him. B. J. Perry, Victoria, has $2,000 up in Lillooet, half on a wager that Bryson will be elected and half that the government will be defeated. No one can be found to cover this money or any of the $4,000 of Liberal money that is offering in Lillooet.

At the Brewster meeting held in the theatre, with Henry Horan in the chair and 75 people present, the references to patronage and the necessity for its abolition were received with cheers. Everywhere the people of the province are thoroughly aroused against the machine and the curse of the patronage system, and the declaration that it is to be abolished under a Liberal government is a great encouragement to everyone.

Stay Under Liberals.

There are very many settlers and pre-emptors who are waiting for September 14 to decide on their future course. They have been hanging on with grim courage through years of disheartening conditions, only upheld for the last year and a half by the hope of a change in the administration which would bring about a more cheerful outlook for the man on the land. If a Liberal government is placed in power these people remain in the province to help in its development; if Mr. Bowser's administration should be sustained they leave the province bag and baggage to seek some place where a welcome is extended to settlers.

At no point where the Liberal speakers have been heard have they failed to be assured by men in their audiences that their future depended on the general election vote that life on the land so long as the present government remains in power and its machine operates as it does is unbearable.

The P. G. E.

In the Pacific Great Eastern fraud, described by Liberal speakers on tour as the last great railway promotion steal in the history of Canada, the main idea has been, of course, the making of millions by the contractor-owners of the railway in promotion and construction and not the building of a development line was the main object. A subsidiary one was the collection of further millions from real estate investors by the sale of lots in railway townsites along the line.

In the latter object the company has either fallen down owing to the collapse of the boom, but its greed has had an evil effect on the old communities along the road. At every point the railway has been diverted so as to run past Lillooet, Clinton, Quesnel and Prince George two or three miles out. Men who have been living on in the old towns for long years, looking forward to railway facilities some day which would justify their faith, and who have voted for the government at the last two elections on the strength of its so-called railway policy, are to-day sadly disillusioned.

Two Miles Away.

At Quesnel the station will be over two miles from the town, this being done so as to benefit the company's townsite scheme. The people there feel keenly that the government has "sold them out" to railway promoters. They are satisfied that the company's excuse that engineering difficulties prevent the town having the line pass through it is groundless, and they went to the expense of a report from an independent engineer. This bore out their opinion and made it plain that a feasible route exists which would place Quesnel on the railway map. As the popular discontent boded ill for Mr. Fraser, the government has had a report from Engineer Kennedy. The premier had this while in Quesnel but did not make it public. He told the people he had to submit it to the company first! This attitude convinces the citizens that Kennedy's report is in favor of their contention. Not only is the station out of town, but it is across the Quesnel river from the town.

At Clinton.

At Clinton, again, the railway has treated the town unfairly, and it has few friends there, if any. Speaking at these points Mr. Brewster was cheered as he referred to the P. G. E., the necessity for its completion and the imperative need for an investigation into the expenditure of the eighteen millions paid out by the government from the proceeds of provincially guaranteed bonds. The people are quite agreed that in issuing a writ against Premier Bowser he was only doing his duty.

FIVE DROWNED.

Edmonton, Aug. 11.—Word of a drowning accident at Lac la Biche, 125 miles northeast of Edmonton, in which five well known Edmonton people are believed to have lost their lives, reached the city last night. The victims are Harry Flowers, manager of the Summerville Hardware Company here; Mrs. Flowers, Mrs. Williams, wife of E. B. Williams, barrister; Mrs. Hoper, wife of H. E. Hoper, chief clerk of the provincial treasury department; and their daughter, Elaine, aged 14.

Science Deals With Corns

Let Us Convince You

Not This Paring never ends a corn.

Not This Harsh liquids are not wise.

Not This Mere protection doesn't cure.

Let us prove to you tonight that every corn is needless.

Get Blue-jay at your drug store. Apply it in a jiffy. The pain will stop forever. And in 48 hours there will be no corn.

That is due to a chemist who has studied corns for 25 years. He has found a gentle, certain way to end them.

No soreness, no inconvenience. Blue-jay is a wax set in protecting plaster.

Millions of people never have corns, simply because they know Blue-jay. They stop them as soon as they start. But substitutes won't do that.

Blue-jay Ends Corns

KAROLYI WANTS EARLY AND LASTING PEACE

Hungarian Political Leader Thinks Vienna Should State Its Aims

Amsterdam, Aug. 11.—A telegram from Budapest says that Count Michael Karolyi, leader of the new independent party, speaking in the Hungarian Chamber of Deputies, asserted it would be in the interests of peace if the government would make a declaration in regard to the war aims of the dual monarchy and the conditions demanded for terminating the struggle. Although he desired a speedy peace, he wished it to be a lasting one.

Referring to Roumania and the aspirations supposed to be cherished there for possession of Transylvania, the count said: "So long as a Hungarian breathes we will fight unswervingly for the integrity of Hungary and the defence of Transylvania."

Count Albert Apponyi, leader of the opposition, who has accepted the programme of Count Karolyi, said he saw the best guarantee of lasting peace in the strengthening of the dual monarchy's alliances.

Premier Tisza said in reply that he desired only to state, as was known, that a very noisy section of the Roumanian press had done everything possible since the outbreak of the war to involve Roumania in war with Austria-Hungary. The premier added that the ridiculous calumny that Count Karolyi demanded peace at any price and a separate peace with Russia had made a certain impression on Roumanian public opinion and on the entente powers. He declared emphatically his agreement with Count Karolyi's view that as long as a Hungarian was left alive the Hungarian nation would resist to the utmost any attack upon its integrity.

GOVT. OF ITALY HAS ISSUED A BLACKLIST

Rome, Aug. 11.—The institution of a blacklist similar to Great Britain's is announced in the official journal. The decree forbids Italians to trade with subjects of enemy states or their allies wherever resident.

Another decree places under government control, with a view to eventual seizure and liquidation, all commercial enterprises in Italy directed or principally controlled by subjects of enemy countries or their allies.

Haynes absolutely guarantees all watch repairs.

AUSTRIAN EXCUSE ABOUT LETIMBRO

Vienna Makes Story to Cover Drowning of Passengers of Steamship

Amsterdam, Aug. 11.—A semi-official account of the sinking by a submarine recently of the Italian mail steamship Letimbro received here to-day from Vienna says the Italian vessel fired on the submarine with two guns and that there were troops on board.

After the submarine had fired a warning shot at a distance of 8,000 metres, the statement says, "the vessel says, "the vessel opened fire from two guns at the stern, and attempted to escape by ziz-zagging. The submarine pursued the steamship, replying to the fire without hitting the vessel, which had shown no flag.

"Later boats were lowered from the steamship. After it had been ascertained that no one remained on board, the steamship was sunk by the submarine.

"Approaching the boats, the submarine ascertained that of 30 persons in one boat, 20 were in khaki, which confirmed the suspicion of the submarine commander that he had before him a vessel with troops aboard."

Washington, Aug. 11.—President Wilson practically has decided to make a speaking trip across the continent. No details of the tour have been arranged, but it is understood to-day that his itinerary will be worked out within the next few days.

S. OKANAGAN WILL CHOOSE L. V. ROGERS

Brewster and Macdonald Spoke at Westbank, Peachland and Summerland

Summerland, B. C., Aug. 11.—Entering the constituency of South Okanagan, Mr. Brewster and Mr. Macdonald held three meetings in this paradise of fruit growing. Two facts soon were apparent—that the government after years of neglect of irrigation problems now is endeavoring to "grease" the Okanagan constituencies with promises of taking over the irrigation plants, and the other, that the Vancouver by-election is going to be worked here through means of an anonymous and lying pamphlet.

A short meeting was held at Westbank, a Liberal stronghold federally and provincially, which is proud of the fact that when in 1911 Yale-Cariboo supported a Conservative candidate it was the only poll which gave a majority for the late Duncan Ross.

Mr. Macdonald at this point spoke of government ownership of public utilities, a plank in the Liberal platform, and dwelt on the fact that the existing government never has done anything to assist or encourage reproductive enterprises. He said the problems of irrigation and of encouraging the settlement of the lands in the dry belts should be considered by the government. Standing behind the teacher's desk in the schoolhouse with a blackboard behind him, Mr. Macdonald involuntarily turned about and illustrated his remarks on the land problem with diagrams showing how the tying up of land under "half purchase," as a Cariboo settler called it, is hampering the development of the country.

Mr. Brewster Spoke.

Mr. Brewster dealt with the way in which the public credit has been tied up to railway and shipbuilding schemes and public moneys fritted away on works where the expenditure was only 50 per cent. efficient, while nothing is being done to help the dry sections of the province with irrigation schemes. Reform of the civil service and the abolition of patronage were spoken of and the audience expressed its approval.

At Peachland Mr. Macdonald referred to an anonymous pamphlet which is being circulated in this constituency, misrepresenting the facts regarding the Vancouver by-election irregularities. It is found here that this matter is being relied on by the Bowser candidate and party to elect Mayor Jones. Mr. Macdonald pointed out to the audience that no one is taking any responsibility for the pamphlet, no name is attached to it, there is nothing to show who is guilty of the many criminally libellous things it contains. When Mr. Macdonald declared the whole matter to be "the most dastardly and gigantic political conspiracy ever perpetrated in Canada," the audience expressed its decided approval of the description.

"Is it not time that we had a public conscience so aroused that it would make impossible the offering for re-election of a man like J. P. Shaw, who pads his accounts in a fashion that would mean his dismissal if he were an employee of yours?" asked Mr. Brewster, to which his hearers gave an emphatic answer.

Gave Facts.

The leader explained the true facts regarding the by-election irregularities, and in reply to a question about prohibition stated the Liberal stand on this non-political issue.

William Douglas, president of the local association, presided.

A meeting was held in the gymnasium of Summerland Baptist college, when in spite of a Red Cross attraction arranged since the Liberal dates were fixed and the demands of fruit picking there was a very large attendance. W. C. Kelly, president of the South Okanagan Liberal Association, was in the chair. The Liberal leader and his lieutenant were warmly welcomed and got an attentive hearing until approaching midnight, Summerland time.

L. V. Rogers.

Leslie V. Rogers, principal of the school of Kelowna, who is the candidate of the Liberal party in South Okanagan, is a young man, active and enthusiastic and excellent speaker. He has been making a tour of the riding during which he has received assurances of support, making positive his election. He is keenly interested in the main industry of this district, fruit growing, and has studied its problems closely. Thus he is able to address his future constituents intelligently and understandingly on the matters which concern them most intimately. In Summerland he exposed the use being made by the Conservatives of the Agricultural Credits Act to secure the votes of applicants for loans.

F. A. Dobbin, who was in the chair at Westbank, was making his last appearance in a public capacity before donning khaki as a member of the 238th Battalion.

Mayor Jones, the Bowser candidate, who was sent a personal invitation to attend any of these meetings, did not put in an appearance.

PROPERTY IN MEXICO.

Paris, Aug. 11.—Confirmation was given to-day by Juan Azcona, financial agent in Paris of the Carranza regime, of a Mexico City dispatch in the Figaro saying the Mexican government has decided to return sequestered property taken from supporters of previous governments, subject to any civil responsibilities which may have been incurred. The dispatch says this will tend to unite the various elements in Mexico for the restoration of normal conditions.

ROSS WILL NOT SIT FOR FORT GEORGE

Not Even Candidature of Gillett Will Get Him Majority

Prince George, Aug. 11.—It is hard to convince the average Liberal or Independent in Fort George riding that W. G. Gillett, so-called Independent Progressive candidate in the present election campaign, was not "bought" by Hon. W. R. Ross, the Bowser candidate, since Mr. Gillett was finally nominated only a few days before nomination day, after it had become apparent that C. A. Gaskill, Liberal, would withdraw so that the Liberals could unite with other forces opposing the government and elect John McInnis, Socialist, who is very strong personally throughout the riding.

Mr. Ross of course knew that Mr. McInnis was very strong, and he also knew that this riding ordinarily would not be called a Socialist one, which no doubt were two of the reasons why he left Fernie to run here. The minister of lands, who knows the political game pretty well, might be inclined to see to it that the opposition vote was split, even if Mr. Gaskill withdrew, and might seize upon Gillett, who seems to be always ready to flop any way which expediency dictates. Anyway that is how the average man up here figures it, especially those who are familiar with Mr. Gillett's political acrobatic stunts since he has come here.

If the average Liberal or other McInnis supporter, however, looks upon Mr. Gillett as the Judas Iscariot of the plot, those of the Conservative persuasion, especially the old-timers, are insistent that Mr. Gillett certainly is not with them. If they were convinced that Mr. Ross had made any deal with Mr. Gillett most of them would be for McInnis, such is the contempt in which Mr. Gillett seems to be held by both Liberals and Conservatives at the present time.

Split.

It is now an old story how the Prince George Conservative Association was split last winter, when the "outlaw" section, headed by Mr. Gillett, formed what it then claimed was the real, genuine, constitutional "Conservative Association." When they found they could get no recognition from the Bowser government, they changed their name to the "Independent Progressives," the organization which "nominated" Mr. Gillett.

A significant point for people outside the riding to consider is that opinion is almost universal that the Bowser government is doomed.

Other things besides Mr. Gillett's entry into the field here show that this riding will be no easier than Fernie would have been for Mr. Ross. The minister made a trip to the coast recently and is said to have sent a wire to Mr. Bowser frantically demanding action on the P. G. E. However, the P. G. E. railway stunt has been very much overdone and any attempt to start "work" on it here now, whether legitimate or merely a bluff, will be generally regarded as part of the Bowser election campaign. People here want the P. G. E. to go ahead, but have waited now for two years and will welcome a change of administration under which work will go ahead on the P.G.E. and everything else without regard to elections and in a saner, more business-like way.

CASUALTIES AMONG CANADIAN SOLDIERS

Ottawa, Aug. 11.—The following casualties have been announced:

Infantry.

Missing—Pte. H. J. Green, Toronto.

Previously reported wounded, now officially reported wounded but on duty—Lieut. A. A. Mackenzie, Kitscoty, Alta.

Wounded—Pte. S. T. Barlow, Lashburn, Sask.; Pte. E. Cloutier, Quebec; Pte. Frank Crowther, Winnipeg; Pte. Jas. von Guntem, Blenheim, Ont.; Pte. Gordon Hawes, Desbarats, Ont.; Pte. T. Irvine, Halifax; Pte. A. H. Livingstone, Brantford; Pte. J. L. Rounthwaite, Crysler, Ont.; Pte. Geo. Senecal, Quebec.

Artillery.

Killed in action—Gnr. A. Pollard, Ottawa.

Wounded — Gnr. Henry Cleaves, Brantford; Gnr. Daniel O'Sullivan, Wychwood, Ont.

Mounted Services.

Wounded—Pte. A. E. Sutton, Toronto.

Services.

Wounded — Pte. Jas. A. Drenman, Brandon.

Infantry.

Killed in action—Pte. P. Coupon, Grand Rapids, Mich.

Previously reported missing; now officially reported died while prisoner of war—Pte. A. C. Barton, Boston, Mass.

Missing, believed killed—Pte. W. D. Boa, Montreal; Pte. Wm. Ross, Toronto.

Missing—Pte. John Bushey, Fort William.

Dangerously ill—Pte. F. J. Gillander, Quebec; Cpl. R. B. Moulton, Tupperville, Ont.; Pte. A. Freeman, Winnipeg; Cpl. Harold Walter, Winnipeg.

Seriously ill—Pte. R. Mellon, Manilla, Ont.; Cpl. R. Whitman, Emerson, Man.; Pte. P. A. Sullivan, Toronto.

Dangerously wounded — Pte. J. E. Bikenshaw, Rocanville, Sask.; Pte. R. E. Rice, Toronto.

Wounded—Pte. A. C. Baker, Quebec; Pte. H. A. Banks, Alliston, Ont.; Pte. Harry Browser, Quebec; Pte. Joseph Camaraire, Montreal; Pte. A. B. Clarke (returned prisoner of war), Pugwash, N. S.; Pte. Wm. Dunlop, Revelstoke, B. C.; Lieut. John Kennedy, Montreal; Pte. P. C. Kirby, Montreal; Pte. W. B. Mackissock, Dauphin, Man.; Pte. J. D. McLean, Moose Jaw; Lieut. L. E. Ormond, Amherst, N. S.; Pte. Harry Perfect, Wells, Maine; Pte. Jos. Sanipass, Rexton, N. S.; Pte. D. Seggie, Toronto; Pte. Herbert Sevigny, Barrie, Ont.; Pte. J. S. Scott, Stratford; Pte. J. H. White, Quebec; Pte. Jos. Chalut, Montreal; Pte. P. Duhamel, Montreal; Pte. H. W. Duncan, Kenora, Ont.; Pte. M. K. Dunn, Brooke, Alta.; Cpl. Kenneth H. Grant, Vancouver; Pte. H. P. James, Montreal; Pte. J. Levois, Montreal; Pte. L. Mason, Trenton, N. S.; Pte. F. Rye, Pidgeon Lake, Alta.; Pte. Alexander Smith, Vancouver; Pte. Geo. Stamm, Niagara Falls; Sgt. J. R. Weaver, Chicago; Pte. R. Bordeleau, Ottawa; Pte. Harry Foster, Winnipeg; Pte. Ellis Graham, Fort Saskatchewan, Alta.; Pte. H. J. Green, Winnipeg.

Wounded accidentally; now on duty—Sgt. Daniel Woodward, Toronto.

Mounted Rifles.

Died of wounds—Pte. Albert Brookman, Toronto.

Previously reported missing; now officially reported died of wounds while prisoner of war—Pte. J. N. Howe, Saskatoon.

Previously reported missing; now officially reported wounded and prisoner—Sgt.-Major R. T. Armstrong, St. John, N. B.; Pte. A. E. Bartley, Peterboro, Ont.; Pte. E. Robson, Philadelphia.

Missing—Pte. Wm. Lowe, Elmwood, Man.

Wounded—Pte. Tom Porter, Innisfail, Alta.; Pte. N. R. Neill, Whitby, Ont.; Pte. Fred Scrimshaw, Vancouver.

Artillery.

Killed in action—Gnr. C. Lawton, Montreal.

Wounded—Gnr. W. J. Charlotte, La Rochelle, Man.; Gnr. Murray Jackson, Hamilton.

Medical Service.

Wounded—Pte. Wm. Holmes, Montreal.

Infantry.

Wounded—Pte. E. W. Collins, England.

Mounted Rifles.

Previously reported unofficially wounded and prisoner; now officially reported prisoners of war—Cpl. G. J. Browley, England; Pte. W. H. Larkman, England; Pte. J. W. Morrison, Scotland; Sgt. Charles Malin, England; Pte. Peter Peterson, Denmark; Pte. P. W. Allen, England; Pte. W. J. Botell, England; Pte. L. C. Devonshire, England; Cpl. G. A. Hillier, England; Pte. A. C. Hermon, England; Pte. Arthur Pritchard, England; Pte. Fred Hogg, Ireland; Pte. Wm. Bowland, England; Pte. T. Macdonald, Scotland; Pte. Ernest Joel, England; Pte. H. M. Milton, England.

Previously reported unofficially, now officially, prisoners of war—Pte. W. C. Baird, England; Pte. James Reid, Scotland; Pte. John Nough, Scotland; Pte. Chas. Hockley, England; Pte. George Brown, Scotland.

Previously reported missing; now officially reported died of wounds while prisoner of war—Sgt. John Burnett, England.

Artillery.

Wounded—Gnr. Robert Milne, England.

Engineers.

Previously reported missing; now officially reported died while prisoner of war—Sapper Richard James, Wales.

Wounded—Sapper Frank Gardner, England.

ZLOTA LIPA FORDED BY RUSSIAN TROOPS; 1,320 MORE CAPTURED

Petrograd, Aug. 11.—The following official report was issued last night:

"On the river Sereth, near the villages of Metenisce and Nosovce, fierce fighting is going on, the Austrians and Germans making a series of counter-attacks against the wood we occupy in the foreground of these villages. Up to the present we have captured 20 officers and 1,300 men.

"On the Niznioff-Monasterzyska railway line our troops have made some progress in a westerly direction and forded the river Zlota Lipa at some points, as the bridges over the stream have all been destroyed."

AUSTRIANS ADMIT LOSS OF GORIZIA

Vienna, Aug. 11.—The following official statement was issued last night:

"Owing to the situation brought about by our evacuation of the Gorizia bridgehead, the town has been given up after a sanguinary repulse of fresh Italian attacks on the Doberdo plateau. The necessary straightening of our line was carried out unhindered by the enemy.

"We have captured 4,100 Italians in the last few days.

"Twenty-one of our aeroplanes visited Venice on the night of August 9, dropping three and a half tons of bombs, causing a dozen fires, one in cotton mills, which was of such dimensions that it could be seen for 25 miles. The machines returned unharmed."

Pride goes before a fall, and the farther it is a head the harder the tumble when it does come.

THE WAR IN GALICIA.

The situation in Galicia grows hourly in intensity. The Russians are closing upon Stanislau, at the same time extending their operations so as to menace Halicz, on the railroad twelve miles north of that important objective. On the left bank of the Dneister, which flows southeasterly some ten miles north of Stanislau, they are making important progress, having crossed the Koropice and Zlota Lipa, two tributaries of the Dneister, and reached Miriampol eight miles southeast of Halicz and almost due north of Stanislau. Thus between the Dneister and Nadvorna, south of Stanislau, they are advancing along a front of over thirty miles and are well to the rear of the centre of von Bothmer's army confronting the Russians across the Strypa. Stanislau's capture may be reported from Petrograd at any time, now.

Even as far as it has gone the progress of the Russians in the region of Halicz and Stanislau will render an Austrian defence of Lemberg along the Lipa and Bug rivers powerless if the Teutons succeed in withdrawing from the Strypa in good order, which is extremely doubtful. In recognition of that fact preparations have been made for the evacuation of Lemberg, which would mean a further retirement to the San and possibly a defensive organization based upon Jaroslau, Przemysl and the Carpathians. This, however, would involve a retirement of the German armies in Russia, certainly to the Bug and probably to the Vistula.

Meanwhile chief interest must be centered in the fortunes of General von Bothmer's army, which is being subjected to the heaviest pressure. On its right General Sakharoff's army, advancing along the Sereth after taking Brody, is now within twelve miles of one of its important lines of communication. In the centre, in front of Tarnopol and along the Strypa, the Russians are pounding the Teutons with sufficient force to keep their centre fully occupied, while on the enemy's left General Letchitsky is within a few miles of the completion of his envelopment movement. Von Bothmer certainly cannot withdraw without suffering very heavily and we should look for a big Russian haul of prisoners and war material, at the worst, if he makes the attempt.

To reassure the German people and also for the enlightenment of neutrals the German war office gravely announces that Germany has abundant resources in man power not yet called upon, and says that more than 4,000,000 between eighteen and forty-five years of age are still available. That must be interesting news to Austria, which is being expeditiously and artistically destroyed because of the depletion of reserves. It must be very illuminating to von Linsingen, who is hard put to it to hold Kovel and who will lose it after all, or to von Hindenburg, who could not initiate a counter-offensive against Russia in Courland because some 250,000 were diverted from his front to the shambles at Verdun. Finally, it must be of especial interest to the Crown Prince, who for sheer lack of men has abandoned all serious intention of capturing Verdun, and the German leaders who are unable to check the slow but sure advance of the British and French along the Somme. General Joffre, too, will be surprised to learn that the German class of 1917, "which is expected to yield 500,000 fresh standard troops," will not be mustered until 1917, "as normally in peace time," in view of the fact that many of the prisoners taken in the Verdun fighting last April are of this class, while already the major part of the class of 1916, called to the front last November, is out of action. The truth, of course, is that Germany is on the down grade in manpower and that her wastage on all fronts is about 200,000 per month, which is five times as great a number as the proportion of effectives each annual class of new recruits gives her.

VAIN APPEALS.

As the heart pants after the waterbrook, so the German yearns for peace. The war lord is just as eager for the end of hostilities as the soldier who is bearing the heaviest burden of the war on the battlefront or the noncombatant who feels in a dim way (being kept in ignorance of the progress of events) that a dreadful menace hangs over the head of Germany. That the Hun, having won the war, cannot dictate terms of peace to his enemies rankles in the heart of the war lord and puzzles the thick head of the deceived creature under him. Hence Herr Zimmerman bursts into a tirade against the allies (and against the British particularly) for persisting in a war which has been won and lost and whose fortunes cannot be altered by further sacrifices of life. Zimmerman says the Huns have taken their stand on certain lines and they cannot be driven therefrom. We shall leave that matter to the future for adjudication. In the meantime it may be well to remember that not so many months ago Huns whose judgment was just as infallible as Zimmerman's declared that peace would be dictated from London, from Paris, and from other places on the map. The fall of Verdun was to seal the fate of France and establish the position of Germany in Europe and the world. Thus on paper the Hun has been retreating from point to point until he has arrived at the ultimate position that peace terms should be discussed "on the basis of the war map." There have been radical changes in the war map of late, and the world will decline to accept the statement of Zimmerman or any Hun that further changes cannot be effected. They are taking place every day. It is not impossible that in the course of stirring human events peace terms may be settled from the castle of the Kaiser in Potsdam. And the Huns, from the All-Highest down, realize such a possibility. That is the reason why they despairingly cry that they did not "will this war" and call attention so frequently and so futilely to their achievements.

SAVING TROUBLE.

In the session of 1913 the legislature passed an act which gave the Dominion Trust powers the company had vainly sought to obtain by federal legislation. Among them was the power to take deposits. Under that law the company was able to give full rein to its piratical operations, to throw out a drag-net for victims. As a direct consequence thousands were ruined, for more than eighty per cent. of the deposits which flowed over the company's counters were received between the passage of the bill and the collapse in the fall of 1914. Indirectly, no doubt, among the chief beneficiaries of that legislation is Alvo von Alvensleben who was indebted to the company for nearly a million dollars and who still controls large interests in the province.

The bill was unconstitutional, and Mr. Bowser knew it. It was his duty as chief legal adviser of the legislature to inform the members of the fact. But he did not do so. He was the company's solicitor, in receipt of considerable fees from it. His firm occupied offices in the company's building. Arnold, therefore, did not need to come to Victoria to transact business with the attorney-general of the province. What a pity it is that somebody did not attack that legislation in the courts! How much misery would have been avoided! The disclosures that would have followed would have been sensational. They would have disclosed many things now sealed to public knowledge. They would have revealed, among other things, the relations between von Alvensleben and the government.

But what a howl would have gone forth from the party press if somebody had attacked the Dominion Trust legislation in the courts! Our morning contemporary would have insisted that the "credit of the province" was being imperilled; that an attempt was being made to "subordinate the legislature to the courts;" that Arnold, von Alvensleben and company were mighty benefactors of the country, and that whatever illegality might be disclosed was in the "public interest." Those are the arguments now being used in regard to Mr. Brewster's effort to obtain the decision of the courts as to the constitutionality of legislation passed after the middle of March. Mr. Justice Morrison the other day stated that the matter was of the utmost importance and should be inquired into. He would not allow the attorney-general to treat it with silent contempt, and insisted that he should present an argument at the proper time. Anybody else in Mr. Bowser's office would be only too anxious to have the point determined in the least possible time, not only to avert chaos in the future if somebody successfully took action, but from motives of elementary right and respect for law itself.

There are two reasons why Mr. Bowser does not want to have the courts settle at this time the question of the constitutionality of legislation adopted after the middle of March. One is the fact that if it was decided that those laws were unconstitutional he would be held to blame, just as he is blamed for the unconstitutional Dominion Trust legislation which left such a terrible legacy of ruin and which has done this province more harm than anything else. The other is his fear of the court's decision on the overpayment of $7,000,000 to his clients, the Pacific Great Eastern. Besides, it might hold up the further gift of $6,000,000 to the company and the campaign contribution which will flow from it, a consideration of particular concern to his party organs just now. There can be no other reason, for he knows that desirable legislation which might now be declared invalid can easily be validated. Indeed an honest man and an honest government would prefer to have the affairs of the province administered legally to having them conducted illegally.

THE CITY SHOULD PAY.

It seems to us that the city is morally bound to pay half the amount awarded by the court in damages to the owner of the cattle barns destroyed in Saanich municipality some time ago, in connection with which another dispute has arisen between the two councils. The two municipalities have been working together in the interests of pure milk supply, which concerns this city even more vitally than it does Saanich, for most of the customers of dairies situated in the neighboring municipality reside here. In recognition of this the sphere of inspection of the city dairy inspector had been enlarged by arrangement to include Saanich.

The barns in question were condemned by the Victoria inspector, the government inspector of dairies and the Saanich medical officer as unsanitary and therefore a menace to the health of the community. They were destroyed by the chief of police of Saanich in the presence of the city inspector. The court condemned this action on the ground that insufficient notice had been given the owner of the barns and awarded damages against the two officials. The city inspector, however, was protected against distraint by the sheriff owing to the fact that having arranged to enlist for overseas service he had transferred his property to his wife. The whole burden of payment, therefore, falls upon the chief of police of Saanich.

The Saanich municipal council is willing to pay the amount for which its own officer is liable, and, fairly and justly, we think, asks Victoria to assume the liability its officer would have had to meet but for his technical immunity. Considering all the circumstances, the undoubted benefit the city has derived from the removal of a menace to its health, of a kind which all authorities unite in describing as formidable, we should not take refuge behind the court's decision or any technicality. This attitude is unworthy of a community of the prominence of Victoria; indeed, in its disregard of what to our mind is a pressing moral obligation it strikes us as altogether petty.

You remember Dean Swift's description of the dreamer who devoted his time and his talents to the extraction of sunbeams from cucumbers. The Vancouver News-Advertiser is just like that enterprising man. It argues that the defeat of two ministers in the late by-elections was a blessing (not in disguise) for the Bowser party. Carrying our contemporary's argument to its logical conclusion, it follows that the defeat of all the ministers of the Bowser government, new and old, would be a great blessing (also not in disguise) for the Conservative party. It would be a greater blessing still for British Columbia.

+ + +

According to the report of the Bowser meeting at Fernie, the Premier was caught very neatly in one of his characteristic attempts to deceive the audience. Defending his action in calling out the militia during the coal mine strike on the island, he said he did so on a requisition signed by Mr. Shaw, the mayor, and "a Liberal." Somebody in the audience interpolated "and by Mr. Planta, too," and Mr. Bowser agreed. It is evident that the Premier did not intend to mention Mr. Planta's name at all, and the audience clearly noted the fact.

+ + +

Mr. Bowser would have no trouble in fixing legislation declared to be unconstitutional. Did he not square the constitution of the province with J. P. Shaw's highly lucrative dual position as Indian Commissioner at $10,950 per year for two or three years and member of the legislature at $1,600 per session in such a way as to enable that gentleman to be in two places at the same time?

+ + +

Some irate "fan" in the bleachers at Vancouver shied a verbal pop bottle at Billy Sunday last night, and, strange to say, notwithstanding his experiences as a baseball player, the "Doctor" retired in dudgeon into his "dugout" and threatened to quit the game. But the umpire (in the chair) succeeded in soothing Billy's feelings and the game proceeded.

+ + +

The morning paper asks the Liberals if they favored a comprehensive expenditure on public works. Not at the rate of two dollars expenditure for one dollar of revenue and on a patronage list basis which gives less than fifty per cent. value. Now that we have answered that question will our contemporary be good enough to tell us what it thinks of Mr. Pooley's ultimatum to the four workingmen of Esquimalt?

+ + +

According to American press dispatches a sort of submarine Flying Dutchman seems to be haunting the Atlantic coast. In the interests of neutrality and of the state of mind of the American people President Wilson should send his navy out to escort the bewildered stranger in. Didn't he convoy the Deutschland (described as a "merchant" ship) out?

+ + +

The British government is believed to be adopting a policy aimed at the confiscation of property owned in the United Kingdom by enemies of the country. What is the government of British Columbia going to do relative to the interests of von Alvensleben, von Reventlow, von Buelow, von Mackensen and so forth in the province?

+ + +

Billy Sunday began speaking with his overcoat on. By the time he had finished he had divested himself of overcoat, undercoat, vest, collar and tie. At that rate if he had spoken for an hour longer it might have been necessary to turn out the lights.

THE KAISER'S OBSESSION.

Philadelphia Ledger.

If the kaiser goes on saying that England conspired and attacked peaceful Germany, he may come in time to believe it.

DAVID SPENCER, LTD.

OF THE NIGHT.

From the Quarterly Notebook.

The war lord rides where the road runs sage
When shrieking shell cuts the trenches' banks,
And issues his "Vorwarts" (flesh and blood,
On the belching guns and the steel set ranks).

Ambition rides hard though the dead lie wan!

The war lord glories in stalwart sons
Who smile at the hostile fire and fling
Choice brands to the burning—youth of the land—
Clutch ye dead hands! To your bayonets cling!

In parting soft arms clasped those necks, torn, red!

Pale mothers a-crouch by blackened hearths
As winter winds shriek through shattered wall;
Each gust a voice—weird echo of fears—
Each lull a harking; fond lips might call

When God's night, and blackness and cold are there.

Hark! Wail of the man child, gently clasped
To a warm young breast. Oh, happy heart!
Hark! Sob of the urchin bruised in play,
Hark! Shout of the schoolboy winning his part.

Ah, the blast brings voices of long ago!

Drift clouds! Beat rain! Howl ye winter winds!
Ye cannot muffle to-night's dread cry—
Child voices that wail through man's deep groans
When pawns of the war lord sink to die,

Rides hard the ambition that springs from hell!

—C. I. Rayn.

SPECIAL LECTURE SUNDAY EVENING

DANIEL PROPHECIES EXAMINED

THE HANDWRITING ON THE WALL

Mene Tekel Upharsin

This is the Interpretation of the Thing—Dan. 5:26.

The Book of Daniel is one of the most remarkable books of Prophecy in the entire Bible. It foretells the world's history from 606 B.C. down to our day and onward—to the establishment of Christ's Kingdom. Not only does it foretell the rise and fall of the four universal Empires of the past, Babylon, Medo Persia, Grecia and Rome, but the leading events of the Gospel Age, and the conditions as they exist to-day are foretold with an accuracy and clearness of vision which is astounding. Daniel 2:28-30. This great Book of Prophecy will be examined in detail Sunday evening at 7.30.

Lecture will be delivered in

PRINCESS THEATRE

(Yates Street)

AUSPICES ASSOCIATED BIBLE STUDENTS

TWENTY-FIVE YEARS AGO TO-DAY

Victoria Times, Aug. 11, 1891.

Capt. McDougall, of the sealing schooner E. B. Marvin, left for the east by this morning's mainland boat. Although the primary object of the captain's trip is to visit home and family, he will stop at Ottawa for the purpose of representing the case of the E. B. Marvin seizure to the department of marine and fisheries. He will be away two months.

Prof. J. W. Robertson, Dominion dairy commissioner, left by this morning's boat for Vancouver, where he will lecture this evening.

The musical and dramatic entertainment on behalf of the Cedar Hill church building fund is fixed for Sept. 3.

Take a Cameron & Calwell Auto Tally-Ho for your picnic party. Comfort, De Luxe. Service, first class. Terms reasonable. Make your reservations early Phone 693 and 185.

Phoenix Stout, 2 quarts for 25c.

☆ ☆ ☆

Billies for Sunday or any other day. Tin billies, 35c. to 60c.; camp grids to boil kettle on 75c.; picnic basket 20c to 60c; picnic plates, 10c doz. R. A. Brown & Co., 1302 Douglas St.

☆ ☆ ☆

Questions Being Asked.—At Douglas Street Baptist church on Sunday evening Rev. M. T. Habershon will preach on the subject "Can a Man Be a Christian in Business?" The sermon will be preceded by a song service at 7.15 p. m.

☆ ☆ ☆

Day Nursery Treat.—Mrs. John J. Collinson and Mrs. George Lovatt were responsible for a very nice treat enjoyed by the elder children of the Victoria Day Nursery on Tuesday afternoon. Through the kindness of Mrs. Collinson, who sent her car, the children were taken to the Willows Beach, and spent a most delightful afternoon picnicking and playing games, returning at the close of a very happy day.

☆ ☆ ☆

Garden Party To-morrow.—All arrangements have been completed for the garden party, which will be held to-morrow by the St. John's branch of the Woman's Auxiliary at the home of Mrs. R. H. Walker, 2316 Work street (between Queens and Bay street). A musical programme has been arranged and a home cooking stall and other attractions will be furnished. It is hoped there will be a large attendance of members and friends.

Clarks Potted Meats, 5 for 25c. at Grant's Grocery, Pandora and Blanshard street.

☆ ☆ ☆

Bank Clearings.—Bank clearings for the week ending August 10 totalled $1,635,641.

☆ ☆ ☆

Basket Picnic at Willows Beach.—A special invitation is extended to the Royal Black Knights and their families to attend a basket picnic which will be held by the Victoria Purple Star lodge, No. 104, L. O. B. A., at the Willows Beach to-morrow.

☆ ☆ ☆

Special Addresses at St. Saviour's.—Next Sunday evening Rev. R. Connell will continue at St. Saviour's his addresses on "Schools of Thought in the Church of England." The subject will be "High Churchmen and Ritualists: What They Are and How They Differ."

☆ ☆ ☆

Public Market.—Week-end market will be held on Saturday as usual. There will be a large attendance of growers. Full lines of local fresh fruit, vegetables, poultry, meats, fish, flowers and all dairy produce will be exhibited for sale. Large crowds of customers are expected.

☆ ☆ ☆

Ladies Social Club Dance.—The Ladies' Social Club will hold their dance in the Connaught hall, View street, Thursday, August 15. Professor Mann's orchestra will furnish the music and dancing will commence at 9 and continue until 1. A buffet supper will be served and a most enjoyable evening is anticipated.

☆ ☆ ☆

Strawberryvale Meeting.—All arrangements have been completed for the public meeting to be held in Strawberryvale hall to-morrow, Saturday night. A short time will be given to a representative of the Equality League. The principal speakers of the evening will be the Liberal candidate, F. A. Pauline and F. J. Stacpoole. Ladies are especially invited.

☆ ☆ ☆

Whist Drive Winners.—The whist drive held by the Ladies' Auxiliary of St. Andrew's and Caledonian Society on Wednesday evening at the home of Mrs. Macdonald, Government street, was much enjoyed by all who attended. The following were the prize winners: Ladies—1, Mrs. Wheeler 2, Mrs. McGregor; 3, Mrs. Denyer. Gentlemen—1, Mr. Minty; 2, Mr. Gidley; 3, Mr. MacIntosh. Refreshments were served, and a hearty vote of thanks was tendered Mr. and Mrs. Macdonald for their kindness.

☆ ☆ ☆

Pictou Academy Centenary Fund.—It is one hundred years since Pictou academy was founded and the event is to be celebrated in Pictou, N. S., on Aug. 27-29. It is one of the best known and probably the most famous institutions of its kind in Canada. No other academy can boast of such a splendid roll of graduates, many of whom have settled on the Pacific coast. It is proposed to make provision for the future of the school by raising a fund to be known as the Pictou Academy Centenary Fund which, when invested, will be used to provide as many bursaries as possible to be paid for two years to the winner, who may attend any of the Canadian universities. It is hoped that many of the old graduates in British Columbia will be able to contribute to this fund. Subscriptions sent to Rev. W. L. Macrae, 1324 Johnson street, city, will be duly acknowledged and forwarded to the treasurer of the committee.

"If you get it at PLIMLEY'S it's all right."

STORES NOT CLOSING

Public Holiday Proclaimed for To-morrow Does Not Affect Shops.

Although a public holiday has been declared by his honor the lieutenant governor in honor to the late Hon. Edgar Dewdney, former lieutenant governor of British Columbia, whose funeral will take place to-morrow morning at 10 o'clock from Christ Church cathedral, this does not mean that business houses all over the city will close. It is announced that the stores will be open until 1 o'clock to-morrow afternoon as usual.

"GRACE OF GIVING"

H. Budge Speaks on Subject of Tithing at First Presbyterian Church.

H. Budge spoke last night at the First Presbyterian church at a meeting called for the purpose of discussing "The Grace of Giving." The proceedings were in the nature of an informal conference on tithing, and in the course of his talk Mr. Budge, who is a prominent worker for the Dominion Y.M.C.A., quoted freely from the Scriptures as authority for the duty of giving. Giving, he said, was an act of worship just the same as prayer or preaching. Passages both in the Old and in the New Testament were used to justify his contention. In Malachi (chapter 3, v. 10), it said: "Bring ye all the tithes into the storehouse, that there may be meat in mine house, and prove me now herewith, saith the Lord of Hosts, if I will not open you the window of heaven and pour you out a blessing that there shall not be room enough to receive it."

A series of instances within his own experience were given by Mr. Budge of men who had grown in the grace of giving. One outstanding instance was of a prominent firm in Montreal, the head of which with his two sons in the early days had gone to Mr. Budge and taken him into his confidence on the matter of sending a missionary out to India at their own expense. This they had done. In addition to this the same firm had given thousands of pounds for missionary, philanthropic, and other purposes. The same men raised $300,000 for the new Y.M.C.A. in Montreal. They had given $500,000 for McGill University, and $4,000,000 for the various patriotic funds of Montreal alone. They were in addition actively engaged in the good works themselves.

Unless a man learned the joy of giving before he reached the age of 35 he would probably never become liberal afterwards, said the speaker.

No resolution on the matter was put at last night's meeting, which was presided over by Rev. J. G. Inkster, but to-night there will be a meeting of the elders, managers, and missionary committee of the congregation to report.

POLLING ARRANGEMENTS

J. Hart Notified Regarding Men Who Will Receive Soldiers' Votes.

J. Hart, provincial manager of the Liberal campaign, has been notified by F. Bamwell, who has charge of the soldiers voting, that Wm. J. Cox, of the 143rd Battalion, has been appointed to take the vote at all the camps with the exception of the internment camps, and he will also superintend the voting on the Niobe. The points to be polled under Capt. Cox include Sarcee, Hughes, Petawawa, London, Ont., Halifax, Niagara, Borden, Ottawa and Valcartier. The voting at Vernon and Mara Internment camps will be taken by J. W. Berry, of Milner, B. C. Mr. Bamwell further states that notice will be given of the dates when the poll at these places will be taken, in order that scrutineers may be present. George Parry, of 718 Esquimalt road, is appointed to take the vote at Sidney, and Alex. John Greenhill is the deputy at Sarcee.

The provincial manager has received word from Nanaimo that the campaign of the supporters of Wm. Sloan, of Nanaimo, is meeting with great success, and that the election of the Liberal candidate at that point is assured.

A. R. Hall, K.C., of Montreal, who is representing the British Columbia Liberals in the taking of the soldiers' vote in England has cabled that he arrived in time for the voting at Bramshott. He does not mention Shorncliffe.

R. H. Pooley and A. Lockley, whose threats against the four workmen at Esquimalt caused such a stir throughout the country, are to speak at Metchosin this evening. G. H. Barnard, M. P., is also billed to take part in the meeting.

WARNING TO PUBLIC.

It has been reported to the People's Prohibition Movement that citizens are being solicited for subscriptions for a fund for Billy Sunday, and in order that the public shall not be imposed on, the officials of the movement wish it to be clearly understood that no authority has been given to any person to collect money for any such purposes. Mention has been made repeatedly of the fact that Mr. Sunday gave his services without any charge and even paid his own personal expenses. In addition to this Mr. Sunday placed a cheque for $100 on the plate at the meeting held in Vancouver last night. With the exception of a presentation of a stick pin by the executive at Vancouver, and a magnificent bouquet presented by a little girl at the same meeting, nothing has been given Mr. Sunday of monetary value.

Subdivision Cancelled. — Judge Lampman sitting in chambers at the county court this morning granted an order of the court for the cancellation of a subdivision plan of a property west of Glen station on the E. & N. railway. Wallingford and Densmore roads which pass through the property are cancelled, but Cherry road is to be left open. D. S. Tait made the application on behalf of Messrs. Allan & Barker, the owners of the property.

Have you smoked "Noblemen" Cigars lately?

When I Leave the World Behind

One of the most popular songs of the season, and in record form—sung by Henry Barr—a distinct triumph for the Columbia Company. Other new songs and instrumental hits worth hearing—worth possessing—are enumerated below. Hear these Records to-day.

A1772—When I Leave the World Behind—Henry Burr.
A1616—Aloha Oe—Hawaiian Vocalists.

Bright sunshine, 11 hours 48 minutes.

General state of weather, clear.

The accused was so weak that he could hardly stand. It was, therefore, with some doubt that the magistrate surveyed the woman who was prosecuting. "Do you mean to tell me," he demanded, "that this man beat you?" "He did not—but he knocked me down." "What! You were knocked down by this physical wreck?" "Excuse me, your honor," said the woman, "but it's only since he struck me that he's been a physical wreck."

SIMPLE MILLINERY FOR SMALL MAIDS

Charming Little Caps of Lace and Net; Pongees Popular for Suits

New York, Aug. 11.—As usual, misses', juniors' and tiny tots' frocks and outer garments follow the same general lines of grown-up designs. The shop windows are gay with flowered muslins, voiles and dainty party frocks of flouncings and embroidered batistes, and even nets and taffetas, for Fashion now decrees that taffeta and the flowered summer silks are not too grown-up for small people. One especially pretty little frock of taffeta and net shown in a shop devoted almost entirely to children's apparel is trimmed with daisies, a band of them forming the girdle, a cluster here and there on the skirt, and one on either shoulder. Another Frenchy little party frock of taffeta and crepe is made sleeveless, with a smartly flaring ruffled skirt; this design, however, will hardly appeal to American mothers, although it is charming as a picture. An effective simple dress for summer is of plain white voile, trimmed with bands of old-time fagoting arranged to form a round yoke and banding the cuffs.

Children's and Junior's Millinery Most Charming.

For the very small person there are charming little fitted caps of lace and net, and fetching little close-fitting bonnets of pale pink and blue Georgette trimmed with a cluster of tiny flowers or a rosette of ribbon. For the older girls the wide brimmed Bankok and Wen-Chows are appropriate, trimmed with a touch of bright color in wool or ribbon, or a simple band of velvet or elastic silk banding the crown. These sports bands with the stripes running around or up and down, are very becoming to the young girl and harmonize well with a plain wash frock or a dark serge or linen suit.

Misses' Jumper Dress

Pongee Popular for Girls.

Natural colored pongee, trimmed with contrasting colors, blues, greens and similar shades, is well liked for the shoe-top suits now so popular with girls of from six to sixteen. The blouses worn with these suits are usually fashioned of the sheer cottons, voiles, marquisettes and nets, or the tub silks and satins, crepe de chine, China silk and pongee. The light colored lawns, dimities and linens are also popular for girls being fashioned into simple frocks, middy dresses and like models. The wide stripes, so popular for grown-up sport skirts and suits, are also popular with the younger generation being fashioned into Norfolk suits, modified Russian and middy frocks and similar loose-lined models, becoming to the growing girl. The sports styles are popular, too, smart little coats of silk and wool jersey in the popular bright tones being worn over tub dresses of linen, duck, pique, and the softer cottons, voiles, crepes and the like.

In the shoe-top suits also, the Poiret twills, novelty wool mixtures, shepherd checks, gabardines and serges are equally as popular as the pongees and Shantungs.

Net and Taffeta Dresses for Afternoons

For party and summer afternoons there are simple net frocks for juniors and misses, trimmed very effectively with lace and the simplest of ribbon trimmings, tucks, smocking and ruches, narrow ruffles and shirrings.

The very tiny tot in her first short frock, wears lawn, batiste, dotted Swiss, crepe and fine linen. Most of these little dresses are fashioned into straight hanging, box-pleated dresses—as the merest toddlers are wearing these models nowadays.

A New Collar as a Feature

Smocking and tucks are effective trimming and hand embroidery plays an important part. White is most favored for the very small maid, although the pale pinks, blues and other soft shades are used considerably, too.

The separate coat to wear over the fluffy dress, is fashioned of taffeta, the novelty checks, serge and Bedford cord. One of the prettiest coats of the season is developed in dark blue Bedford cord with collar and cuffs of white broadcloth, closed with large white bone buttons. The collar and cuffs may be made removable, thus doing away with the impractical side of the white.

Blood was like Water Anaemia

You cut your finger and the wound is slow to heal. The blood is watery and fails to form a clot. The lips and gums are pale. You are anaemic.

This condition is best overcome by using Dr. Chase's Nerve Food. In this food cure there are combined in concentrated form the elements that go to form new, rich, red blood.

The appetite is sharpened, digestion improves, color and strength return, and you rid yourself of weakness and many annoying derangements.

50 cts. a box, 6 for $2.50, all dealers, or Edmanson, Bates & Co., Ltd., Toronto.

Dr. Chase's Nerve Food

THE FIRST TAXI CAB.

How many cyclists as they listen to the click-of their cyclometer patiently recording their mileage are aware that an instrument of similar object but of different and, of course, inferior mechanism was in use 2,000 years ago? Yet Vitruvius, who is supposed to have been an engineer officer in Julius Caesar's army, gives an elaborate description of a "hodometer" which was attached to carriage wheels to measure the distance traversed. His account is too long to quote; briefly, it may be said that by a system of three small boxes with catch adjustments a pebble was dropped into the lowest box at the end of each mile traversed, and so by counting the pebbles in this box at the end of the journey the traveler could form an approximate estimate of the number of miles he had traveled.—London Chronicle.

Mr. and Mrs. Jones were having a quiet little chat the other evening, when he asked—"What would you call a man who agrees with everybody?" "A fool!" replied his wife. "Then, supposing it was a woman?" continued Jones. "It is impossible that any woman would!" replied the lady.

Neighbor—"I see you advertised for a cook yesterday. Did you get one?" Mrs. Wiseman—"I don't know yet. I can tell better after dinner."

On a visit to the city, arriving yesterday, are Hon. E. B. Hawkins and Walter Croye, of Duluth, who are accompanied here by Ray W. Jones, of Seattle. Mr. Hawkins states that the present visit is taken en route to the Canadian Rockies, the intention being to stay off at Banff. Mr. Hawkins, like many other Americans, has considerable financial interests in British Columbia, and so business will be combined with pleasure.

☆ ☆ ☆

The Grande Prairie (Alberta) Herald of August 1 contains the following wedding announcement: "A wedding of unusual interest took place this morning at 9 o'clock at the Catholic mission, when John Thomas Fitzpatrick, of Grande Prairie, and Miss Mabel Leigh, youngest daughter of Mr. and Mrs. Leonard Leigh, of Esquimalt, B. C., were united in marriage by the Rev. Father Josse. The bridesmaid was Mrs. Harry Carlin, a sister of the groom. Wm. Baines, of Kleskun Hill, acted as best man. Immediately following the ceremony the bride and groom, attended by a few near relatives and friends, repaired to the home of Mr. and Mrs. Harry Carlin, where a wedding breakfast was served. The bride is a popular young lady who has resided for a number of years at Esquimalt, a suburb of Victoria, B. C. Mr. Fitzpatrick was one of the early settlers in Grande Prairie, having come here four years ago with his father, Thomas Fitzpatrick, both of whom have homesteaded in the Kleskun Hill district. Mr. Fitzpatrick is managing the Grande Prairie branch of the Buffalo Lakes Lumber Co. The young couple will reside permanently in Grande Prairie."

Wife (angrily): "I think you're the meanest man that ever was." Husband: "That's hard on yourself, my dear. According to your mother, you have been the making of me."

FLEISCHMANN'S YEAST

meets her every requirement.

CHOCOLATES FROM VICTORIA ARE APPRECIATED

Read what this Victoria boy in the trenches has to say about Stevenson's "Homade" Chocolates. Evidently they are the one and only brand of sweets worth sending to France:

Dear "Homade":—Some time ago there came to the battalion, for the boys of Victoria, a consignment of candies. Fortunately for myself I was on the spot when it arrived and had my choice. There were big boxes and small boxes, boxes colored green, yellow, red—in fact every color of the rainbow, and many the poor rainbow was never guilty of—boxes with pink ribbon and boxes tied with red, yellow and green ribbon, but when my wandering sight rested on a plain chocolate colored box, with the well-remembered old sign of "Homade" thereon I knew my quest was over. I immediately pinched one box while the others were scrambling for the gaily decorated ones, and then claimed another as my first share thereof. It did not take them long though to discover their mistake and then they besieged me trying to get a taste of real candies. All these candies were appreciated very much indeed, but Stevenson's "Homade" were unanimously voted the best. "Tommy" is indeed a good judge and fair.

These goodies were, I believe, intended to reach the troops far earlier, but owing to the eccentricities of our rural mail delivery, did not arrive until after we had taken to quarreling with our neighbors over the line, around about June 1. Since then we have been so busy I have not had an opportunity to thank you for my share of those delicious candies.

As the return past may be just as far behind the times, I will wish you now a Merry, Merry Christmas and a Happy New Year. Wishing you all great happiness and prosperity throughout the year, I am, sincerely yours,

NO. 77414, PTE. W. H. M'NALLY,
No. 1 Co., 15th Can. Batt., 3rd Egde,
B. E. F.,
July 17, 1916.

"Don't suppose you'd like a fool to come here and try to tell you how to conduct your business?" "Oh, I don't mind—what alterations were you about to suggest?"

Let Me Save Your Teeth

The illustrious Gothe once said "A dainty foot is the only feature which a beautiful woman retains until she dies." More's the pity he did not live in these enlightened days—these days of modern dentistry—he would know then that the beautiful woman retains to the end, not only her shapely foot, but the pearly-white, even teeth with which nature has endowed her.

If your teeth are imperfect—if they are broken, missing or decayed, you should delay not a moment in paying me a visit. I can save them for you in a remarkably short time. I can guarantee that you will not feel one twinge of pain in the operation, and that they will remain perfect for many years to come.

I OWE MY HEALTH

To Lydia E. Pinkham's Vegetable Compound.

Washington Park, Ill.—"I am the mother of four children and have suffered with female trouble, backache, nervous spells and the blues. My children's loud talking and romping would make me so nervous I could just tear everything to pieces and I would ache all over and feel so sick that I would not want anyone to talk to me at times. Lydia E. Pinkham's Vegetable Compound and Liver Pills restored me to health and I want to thank you for the good they have done me. I have had quite a bit of trouble and worry but it does not affect my youthful looks. My friends say 'Why do you look so young and well?' I owe it all to the Lydia E. Pinkham remedies."—Mrs. ROBT. STOPIEL, Moore Avenue, Washington Park, Illinois.

We wish every woman who suffers from female troubles, nervousness, backache or the blues could see the letters written by women made well by Lydia E. Pinkham's Vegetable Compound.

If you have any symptom about which you would like to know write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for helpful advice given free of charge.

Repairs to Ross Bay Sea Wall

Sealed tenders will be received by the undersigned, up to 4 p. m. on Monday, August 14, 1916, for approximately six thousand five hundred (6,500) tons of Rubble Pitching, to be placed at the toe of Ross Bay Sea Wall. Specification can be secured from the City Engineer. Tenders must be addressed to the City Purchasing Agent, and marked on the outside of the envelope "Tenders for Ross Bay Sea Wall Repairs." The lowest or any other tender not necessarily accepted.

W. GALT,
City Purchasing Agent.
Victoria, B. C., August 5, 1916.

LIQUOR LICENSE NOTICE.

Take notice that an application will be made to the Board of License Commissioners for the City of Victoria at their next sittings, to be held on Wednesday, the thirteenth day of September, 1916, for a transfer from the undersigned to George A. North, of the City of Victoria, of the hotel license granted in respect of the premises known as the Metropolis Hotel, situated on Lots 21 and 22, Block 3, Victoria City.

Dated at the City of Victoria, B. C., this 4th day of July, 1916.

CON. L. WHELAN.

NOTICE.

TAKE NOTICE that I intend to apply at the next regular sittings of the Board of License Commissioners for the City of Victoria for a transfer of the hotel liquor license held by me in respect of the premises known as the St. Francis Hotel, Yates street, to Peter Steele.

Dated June 8, 1916.

HARRY BROWN,
Applicant.

COOKERY SCHOOL HAS BEEN SUCCESS

Mrs. Brown-Lewers Delivered Closing Lecture This Afternoon

The Daily Times Better Foods, Better Homes School, which closed this afternoon in the Princess Theatre, has been a success from start to finish.

Mrs. Brown-Lewers has made a strong appeal for better foods and better homes, and it has not fallen on deaf ears. Women of Victoria who have attended her classes from day to day have been strongly impressed by the earnestness by which Mrs. Brown-Lewers urges them to give their families good food and put into the care of their homes as much thought and business as their husbands put into the administration of their business affairs.

Many women have learned from Mrs. Brown-Lewers how to make delicious cakes and good pastry, the value of inexpensive cuts of meat and how to prepare them, and have in fact added to their knowledge along all cookery lines. The lecturer feels that Victoria, as the opening point of her lecture course for this season, has been well chosen, and she goes on her way rejoicing at the success of her school here. The best wishes of the city and of the Daily Times go with her.

As announced by Mrs. Brown-Lewers, the recipe for tomato sauce demonstrated by her to-day at the Daily Times Better Foods, Better Homes School in Princess Theatre, is given below, together with some other interesting recipes submitted by her.

Tomato Sauce.

Two tablespoonfuls flour, water, 2 cupfuls tomato juice, ¼ teaspoonful salt, ¼ teaspoonful cloves ground, ½ teaspoonful onion juice.

Rub together flour and water until a smooth paste. Stir into tomato juice. Add seasonings. Serve with croquettes. This is a splendid sauce to serve with cauliflower.

Spinach.

Spinach, 3 tablespoonfuls crisco, 3 pepper corns, 1 allspice, 1 stick of cinnamon 1 inch long, 1 bay leaf.

Wash and carefully pick over the spinach. Do not shake the leaves dry. In the pot in which the spinach is to be cooked, saute the pepper corns, allspice, cinnamon and bay leaf in the crisco for five minutes. Remove spices from crisco and place the spinach in the pot. Cover closely and set over slow heat. Let simmer 20 minutes. Serve very hot with lemon juice or vinegar and grated hard cooked eggs.

White Rock Cake.

Two egg whites, 4 tablespoonfuls crisco, 1 cupful sugar, ¾ cupful milk, 3 cupfuls flour, 3 teaspoonfuls baking powder, 1 teaspoonful salt.

Put egg whites, crisco and sugar into a bowl and beat until light. Beat the milk in slowly. Add the flour (to which the baking powder and salt have been added) slowly, beating all the while. Bake in two layers.

Ginger Mousse.

One and three-quarter cupfuls scalded milk, 1 cupful sugar, 3 tablespoonfuls ginger syrup, 1 tablespoonful vanilla, ⅛ teaspoonful salt, 2 tablespoonfuls granulated gelatine, ¼ cupful cold water, 1 quart cream, 1 cupful Canton ginger cut in small pieces, 2 tablespoonfuls lemon juice.

Heat the milk, add sugar, stir until sugar is dissolved. Add ginger syrup, vanilla and salt. Soak the gelatine in the water until soft. Add to the hot milk and stir in double boiler until gelatine is thoroughly dissolved. Set aside to cool. When the mixture begins to thicken, fold in the cream which has been whipped, and last add the ginger to which the lemon juice has been added. Pour into a mould, seal with a paraffined cloth. Tie securely and freeze in a fireless cooker packed in a mixture of sale and ice in equal parts. Freeze 3 to 4 hours.

Oatmeal Wafers.

One cupful flour, 2 cupfuls oatmeal, ¼ teaspoonful soda, 1 teaspoonful salt, 1 teaspoonful spice, ½ cupful crisco, 1 cupful brown sugar, cold water.

Mix flour and oatmeal, soda, salt and spice. Rub in crisco and sugar. Add water to make a very stiff dough. Roll thin, cut and bake in hot oven.

Pot Roast.

Select the round bone shoulder roast or the three-cornered roast from the hind quarter; the blade roast is also a good one. Wipe with a damp cloth and dredge with flour. Put 4 tablespoonfuls of crisco into a frying pan, slice one onion and one carrot very thin and saute in crisco until a golden brown. Dip out and put into large pot of fireless cooker, then braise the roast in the same fat, turning until each side is nicely browned. Place in cooker pot, add 3 whole cloves, 3 allspice, 3 bay leaves, 3 tablespoonfuls of cooked tomatoes or ½ a whole tomato, and about a teaspoonful of salt. Pour into the frying pan in which the meat was browned, a quart of water, let it boil 1 minute and pour over the meat, place in fireless cooker for 2 to 3 hours. One hour before serving put potatoes into this pot. Serve with noodles.

Noodles.

One egg, 2 tablespoonfuls water, ½ teaspoonful salt. As much flour as required to make as stiff paste as can be rolled easily.

Beat egg, water and salt together. Sift in flour carefully first until the paste can be rolled very thin. Roll out, then fold and cut into fine strip. Toss to separate and let dry 10 or 15 minutes. Drop slowly into boiling salted water, cook 10 minutes. Drain and place to one side. When roast is done, arrange upon platter, place boiled potatoes around it, then a ring of noodles. Pour over the sauce from the meat and sprinkle generously with criscoed crumbs.

Crullers.

Five teaspoonfuls crisco, 1 cupful sugar, 3 eggs, 4 cupfuls flour, 1 teaspoonful salt, 4 teaspoonfuls baking powder, 1 teaspoonful spice, sufficient milk to make a soft dough, about 1-3 cupful.

Cream crisco and sugar together. Add the beaten eggs. Mix and sift the dry ingredients. Add alternately with the milk to first mixture. Cruller dough should be very soft. Place on a well floured board. Roll ½ inch thick, cut and fry in crisco hot enough to turn a 1 inch cube of bread a golden brown in 60 counts.

Plain Yellow Cake.

Half cupful crisco, 1½ cupfuls brown sugar, 2 eggs, 1 cupful milk, 3 cupfuls flour, 3 teaspoonfuls baking powder, 1 teaspoonful salt.

Separate the eggs. Cream crisco and sugar, add egg yolks, beat light. Add 1-3 cupful milk, beating again. Sift dry ingredients, add to first mixture, alternating with remainder of milk. Bake in layers in slow oven. Put together with lemon cream filling. Ice with orange icing.

Orange Icing.

1 cupful finely powdered sugar, 2 tablespoonfuls orange juice, ¼ teaspoonful vanilla.

Place ingredients in double boiler or thin bowl over the tea kettle. Stir until a smooth paste. Keep hot until needed.

Mexico's mineral wealth is so vast as almost to justify the title "The World's Treasure House," which Humboldt bestowed on the troublous republic. Gold, silver, copper, lead, mercury, tin, and zinc exist in large quantities, and though vast wealth has been acquired already by their exploitation, experts declare that the mineral resources of the country have only been scratched so far. Coal, too, is found in many localities, and oilfields of enormous extent and productiveness have been discovered in recent years. One oil well alone which was tapped some years ago in the Tampico district of Vera Cruz has been producing at the rate of 100,000 barrels per month ever since.—London Chronicle.

Mr. Fussey: "I don't see why you wear those ridiculously big sleeves when you have nothing to fill them." Mrs. Fussey: "Do you fill your silk hat?"

To the Ladies of Victoria:

Have You Noticed

That MRS. MARY BROWN-LEWERS, the lecturer in the TIMES'S Free School of Home Economics, uses

Royal Baking Powder

Made in Canada

Teachers of Cookery, and baking experts generally, use Royal Baking Powder because they know it can always be relied upon to make the finest and most wholesome food.

Experience has taught them that it is not economy to risk the loss of flour, shortening and eggs by the failure likely to result from the use of an inferior Baking Powder.

Royal Baking Powder Contains No Alum

Perfectly leavens and makes the food more delicious and wholesome.

Library Books

The following new books have just been received at the public library:

PHILOSOPHY.

Stead, William Thomas—After death, a personal narrative. 1914. 133.9-S79af.

Wild Rose Pastry Flour
Royal Standard Chick Food
Royal Standard Seeds
and a host of others.

Vancouver Milling & Grain Co., Ltd.
Vancouver, Victoria, New Westminster, Nanaimo.

One, at least, of the "astounding facts" given by Herr Trietsch in his comparison of the comparative degress of culture of Germany, France and Great Britain, certainly deserves the adjective. "Is it barbarism," he asks, "that German scholars have been able to secure 14 Nobel prizes and France and England only three each?" Apparently Herr Trietsch is only referring to the three science prizes, those for physics, chemistry and medicine, as 14 is the number of those which have been awarded to German men of science. But, as a fact, instead of France and England only sharing six between them, they have actually divided no fewer than 21, of which 12 have gone to France and nine to England. And it is worth noting that, while France and England share four of the peace prizes awarded to date, not one has yet been awarded to a German. "Is this barbarism?" to quote Herr Trietsch.—London Chronicle.

Miss Black—"How well Miss Elderly carries her age, doesn't she?" Miss Green—"But she must be used to it by now!"

STEFANSSON CRAFT ARRIVES AT NOME

Power Boat Gladiator Taking on Supplies for Canadian Arctic Expedition

Nome, Aug. 11.—The power boat Gladiator, one of the vessels of the Canadian exploring expedition commanded by Vilhjalmur Stefansson, arrived from Herschel Island to-day, but brought no news of the commander of the expedition, who is passing the summer north of Bank's Land. The Gladiator left Herschel Island, west of the mouth of the Mackenzie river, July 27, and will depart for the island with supplies after remaining here one week. The Gladiator passed the winter frozen in the ice at King Point.

Ole Andresen, a Norwegian who was one of Stefansson's companions in his dash over the ice from Cape Kellett last year when a new Arctic continent was discovered in latitude 77.42, longitude west 115.43, was on the Gladiator. He said he had no fear for the safety of Stefansson.

The Polar Bear sailed north from Cape Kellett, Bank's Land, September 3, 1915, under Stefansson's personal command, with ten white men, nine Eskimos and 100 dogs. The Polar Bear wintered on the north side of Bank's Land. It was Stefansson's purpose, during the present year, to explore the ice west to the 145th meridian and to 82 north latitude.

The Stefansson power boat North Star sailed August 4, 1915, under command of Capt. Wilkins, of Australia, for Prince Patrick or Melville Island, by way of Cape Alfred. There were four men on the North Star.

Stefansson is supposed to be now on Bank's Land, where he promised to meet Capt. Louis Lane about August 5, of the present year. Lane sailed from Seattle July 26, in the new power schooner Great Bear.

SHIPPING INTELLIGENCE

San Francisco, Aug. 10.—Arrived: Strs W. F. Herrin, from Astoria; Korea Maru (Jap), from New York. Sailed: Strs Adeline Smith, from Napier, N. Z.; Adeline Smith, from Coos Bay; Great Northern, from Astoria; Queen, from Seattle, at noon; schr Samar, Manila.

Piscagua, Aug. 8.—Arrived: Str Luz Blanca, from Vancouver, B. C., via ports.

Shanghai, Aug. 9.—Arrived: Str Atagosan Maru, from Seattle.

HAWAII'S SCHEDULE COMPLETELY UPSET

Delay in Quarantine Puts O. S. K. Liner Three Weeks Behind

That the Osaka Shosen Kaisha liner Hawaii Maru, recently held at Yokohama with fifteen cases of cholera aboard, will be practically three weeks' late in leaving Victoria on her return voyage to the Orient, is the announcement made to-day by R. P. Rithet & Co., local agents for the Japanese company. The information received by the agents here is to the effect that the liner will arrive at this port on Wednesday, August 23, and will leave outbound on September 5. Owing to the drastic action taken by the Japanese quarantine authorities the Hawaii Maru is now crossing the Pacific without a single member of her original complement aboard and carries no passengers. Following the discovery of cholera cases on the ship the whole of her crew and all passengers were ordered ashore and placed in isolation, while the vessel itself was fumigated and permitted to sail, in charge of a new crew, twenty days' behind schedule. The Hawaii Maru finally got got away from Yokohama on Wednesday last and she is expected to put in an appearance at this port on Wednesday week.

The fact that the Hawaii Maru was quarantined for such a length of time will result in two Osaka Shosen Kaisha steamships arriving here practically together, as the liner Mexico Maru, leaving Yokohama on Thursday, August 10, is due to make Victoria on Friday, August 25, two days after the Hawaii Maru.

The latter ship was quarantined at Yakohama on August 3, on the discovery of fifteen cases of cholera, several of which proved fatal, following the arrival of the liner from Manila.

SETTLEMENT REACHED

Employers Agree to Enforce Closed Shop Conditions at San Francisco.

San Francisco, Aug. 11.—A settlement of the differences between the local waterfront employers' union and the riggers' and stevedores' union of this city, which struck June 1 for higher wages and the closed shop, was reached here to-day at a conference called to arbitrate the men's demands.

The employers agreed to enforce closed shop conditions on the local waterfront, according to E. H. Foley, secretary of the riggers and stevedores. Other details of the agreement reached were not made public. It became known, however, that the wage scale has not been fully determined upon, but will be settled at another meeting soon.

Until the agreement reached to-day has been ratified by the members of both the employees' and employers' unions, it will not become effective. Both sides to-day expected it would be satisfactory to all concerned.

The settlement reached here to-day will not alter strike conditions in other Pacific ports where longshoremen have been out since June 1.

VESSELS REGISTERED IN CANADA DURING JUNE

The following steam vessels were registered in Canada during the month of June, 1916: Strathardle, 2,823 tons, Victoria, B. C.; Kildala, 30 tons, Vancouver, B.C.; Joyland, 1,070 tons, Montreal; Rbt. L. Fryer, 1,158 tons, Port Arthur.

Sailing vessels and barges registered in Canada during the same period were: A. H. Whitman, 94 tons, Lunenburg, N. S.; C. M. Walters, 84 tons, Lunenburg, N. S.; Crane Island, 57 tons, Quebec; Edwin A. Grozier, 69 tons, Charlottetown, P.E.I.; Florence Melanson, 99 tons, Weymouth, N. S.; G. of G. No. 2, 123 tons, Vancouver, B. C.; Grace Hilda, 83 tons, Lunenburg, N. S.; Jane Cox, 94 tons, Shelburne, N. S.; Leconfield, 333 tons, St. John, N. B.; Lillian H., 124 tons, Parrsboro, N. S.; Luscille M. Colp, 95 tons, Lunenburg, N. S.; Pioneer S. & G. Co., No. 11, 645 tons, Vancouver, B. C.; Sadie No. 4, 183 tons, Victoria, B. C.; Sadie No. 14, 164 tons, Victoria, B. C.; U. Paris, 103 tons, Montreal; Wayne, 668 tons, Montreal; and Wm. Thos. Moore, 307 tons, Halifax, N. S.

LONGSHOREMEN END AGREEMENT TO-MORROW

Conference Expected to Be Held Following Expiration of Sixty Days' Notice

To-morrow will see the existing agreement between the International Longshoremen's Union and the various shipping companies of British Columbia terminated. It will be remembered that the longshoremen gave the required sixty days' notice to the companies on June 12 of this year. The original agreement between the longshoremen and the companies terminated on December 31, 1915, but an undertaking was reached between the interests concerned whereby the longshoremen would continue at work on the understanding that the agreement could be cancelled by either party, by giving sixty days' notice.

It is not known what demands, if any, will be placed before the different companies concerned, but it is expected that a conference will be arranged within the next few days, the results of which cannot be forecasted.

EMPRESS OF RUSSIA DEPARTS FOR ORIENT

At 11 a. m. to-day the C. P. O. S. liner Empress of Russia, Capt. S. Robinson, R. N. R., got away from the outer docks for Yokohama and Hongkong. She arrived here from Vancouver at 9 o'clock last night to await the arrival of delayed eastern mail which was brought to Victoria this morning by the steamer Princess Mary. The transfer of the big mail shipment occupied several hours.

During the stay of the liner in port the majority of the 348 saloon passengers took the opportunity of looking over the city. Departing from her customary itinerary the Russia will touch at Shanghai this voyage.

The sister liner Empress of Asia, Capt. W. Davidson, R. N. R., sailed from Hongkong on Wednesday last and is scheduled to reach Victoria August 26.

THE SKIPPER'S WOES

(London Fair Play.)

Have pity, ye Marine and Local Boards,
Ye little magnates—yea, most mighty lords—
On the poor skipper, for his lot is cast
Where fate unkind pursues him to the last.
Alas, poor man, he is in evil plight,
He's always wrong, he's never in the right.
Upon him, like a scapegoat, must be thrown
The faults of others, not to say his own;
Disaster comes, and tho' 'twas not his fault,
"'Tis plain the fellow is not worth his salt."
Should fogs or currents put his reckoning out,
At once they ask: "What was the fool about?"
His ship is wrecked, or by collision sunk:
Of course he has to prove he wasn't drunk.
If freights are low, who but himself to blame?
Jack's duff is spoiled, at once he says the same;
The beef all bone and innocent of fat,
Who but the skipper is to blame for that?
He shortens sail on some dark, stormy night,
Jack growls, and vows he did it out of spite.
Now he must teach the carpenter his trade;
Now show the sailmaker how the sails are made.
In time of need he must be midwife, too,
Or help to kill—as other doctors do.
Should a poor sailor sleep his last long sleep,
He—parson then—consigns him to the deep;
And if he has a tear or two to spare
He acts chief mourner, and bestows them there.
Well up in cooking, and in skill profound
At weighing tea and sugar by the pound;
Should there be strife or mutiny on board
He drops the scales and then takes up the sword.
And when the strife is over goes his rounds,
And—surgeon then—binds up the gaping wounds.
Now, an astronomer, he views the stars,
Measures a distance 'twixt the moon and Mars;
A meteorologist we find him now,
Recording calms or winds—blow high or low.
Of course he's Euclid at his finger ends,
Or, what is harder, knows all the knots and bends;
Is cunning, too, at mixing paints and oils;
Takes everything in hand and nothing spoils.
Versed in exchanges—up in bills of lading,
And now a merchant, for his owners trading,
They praise him high, declare he is a gem,
The credit his—the cash all goes to them.
On deck all night amid the pelting rain,
In wearying calm or dreadful hurricane,
China typhoon, cyclones in Indian seas,
Afric's tornadoes—all mere trifles these;
Or a bright glare at night off Newfoundland
Proclaims the dreaded iceberg close at hand.
Such dangers o'er, long wished for rest is sought,
But "Hard a-starboard," and then "Hard a-port,"
Disturbs his dreams; and rushing from below,
"A light close to, sir, on the weather bow,"
"Hard up," bawls; "Hard down," another cries,
While half asleep the wearied skipper tries
To peer amid the gloom, and there discern
A steamer's light, now half a mile astern.
Once he sleeps—but now his sleep invade
Dreams of Inquiry Courts and Boards of Trade.
On board a steamer now, he scorns the wind,
But other cares oppress his anxious mind;
Of valves and pistons, cylinders and screws,
He knows, or ought to know, the names and use;
Surface condensers, steam and vacuum gauges,
Of coal combustion in its various stages,
Of salt in boilers and incrustations,
Of screw propellers and side-wheel gyrations;
Of things in general—air, and sky and sea—
A walking cyclopaedia he must be.
Arrived in port. "Well, what's up now?" you ask.
They've found a little powder in a flask—
Fine him five pounds; and see—the careless dog—
Here's an omission in the official log;
Fine him again—the law must be enforced;
Some one must pay so let him bear the cost.
Alas! poor skipper, if at sea you've trouble,
Arrived in port you may have double.
You're fined for this because you didn't do it,
For something else because you never knew it;
Fined to the last and turned from door to door
To find you are not wanted any more.

ENORMOUS INCREASE IN SHIPPING VALUES

Mean Value of Tonnage Has Jumped About 200 Per Cent in Twelve Months

Illustrating the phenomenal rise in shipping values, the Liverpool Journal of Commerce gives a selected list of steamships sold in May of this year and a corresponding list of vessels sold in May, 1915.

Ships disposed of in May fetched prices ranging from £10 to £37 9s. a ton, the average working out at £20 12s. a ton. A year ago the range was only from £5 5s. to £18 15s. a ton, while the average was £17 12s. a ton. Thus the mean value has jumped up in twelve months nearly 200 per cent.

One vessel just disposed of for £191,000 fetched £78,000 in January and £36,500 in August, 1915.

Another now sold for £140,000 realized £100,000 last year and £26,200 in 1914, and a third, which has just fetched £62,000, was sold for £21,000 last year and for £7,800 in 1912.

Four others, which were disposed of in 1915 for £177,000, have now been sold for £355,500.

SADO LEAVING SUNDAY.

W. R. Dale, local agent for the Nippon Yusen Kaisha, has been advised that the Japanese liner Sado Maru may be dispatched from Seattle for Victoria on Sunday. She was originally scheduled to sail from this port for Hongkong on August 8.

IN FROM VLADIVOSTOK.

The steamer Geo. W. Fenwick, Capt. Self, passed up to Vancouver at noon to-day from Vladivostok. She was last on the coast on June 16, when she left Seattle for the Far East. She is a vessel of 1,193 net tons.

NAVAL RECRUITS WANTED.

To fill vacancies caused by recent transfers east, the Royal Naval Canadian Volunteer Reserve needs fifty additional recruits. Applications for enlistment will be received at the dockyard, Esquimalt.

DREDGED BASIN WITH HER OWN MACHINERY

Steamer Bear Was Released From Sand by Pumps Harnessed to Engines

News received here regarding the salvage operations on the steamer Bear, which for several weeks past has been ashore at Sugar Loaf Reef, near Cape Mendocino, indicate that in order to get the vessel free of the sand in which her hull was partly buried, the salvors harnessed large sand pumps to the steamer's engines and a basin deep enough to float the big passenger craft was dredged around her. After the Bear had been floated free in this self-dredged basin further efforts were made last night by the B. C. Salvage Company's steamer Salvor, assisted by the tug Relief, to haul the steamship into deep water, but the combined pull only resulted in the vessel being shifted a slight distance.

Capt. W. H. Legan, representative of the London Salvage Association at this port, who is superintending the salvage operations, has expressed the opinion that the success of the venture depends entirely upon the continuance of favorable weather. A gale at this stage of the undertaking would not only unto all the work that has been already accomplished, but would probably result in the complete failure of the enterprise.

The Bear drove ashore on the night of June 14, and on June 25, following orders received from the London underwriters, the Salvor was dispatched from Victoria to the assistance of the stranded vessel.

The Bear is owned by the San Francisco and Portland Steamship Company and was wrecked while on passage from Portland to the Golden Gate.

The time used is Pacific standard, for the 120th Meridian west. It is counted from 0 to 24 hours, from midnight to midnight. The figures for height serve to distinguish high water from low water. Where blanks occur in the tables, the tide rises or falls continuously during two successive tidal periods without turning.

Esquimalt.—To find the depth of water on the sill of the dry dock at any tide, add 19.0 feet to the height of high water as above given.

The height is in feet and tenths of a foot, above the average level of lower low water.

CHELOHSIN MAKES CALL.

Early this morning the steamer Chelohsin, Capt. Edwards, of the Union Steamship Company's fleet, arrived at the G.T.P. wharves from Prince Rupert and Northern British Columbia ports. She brought 70 cabin passengers south. After discharging freight here the Chelohsin left at 10 a.m. on her return trip North via Vancouver. The Seattle call has been eliminated from the steamer's itinerary.

ALIENS AS COMMANDERS OF BRITISH VESSELS

Press reports stated recently that orders had been issued forbidding the employment of men of alien birth, whether naturalized British subjects or not, in command of British steamships, but it has since been officially stated that the Dominion government has not issued such an order, nor is the marine department aware that such an order has been issued by the British government. The marine department has instructed Canadian shipping owners that they should take all possible steps to ensure that no enemy subjects remain on board any British merchant vessel, no matter what her occupation and voyage.

The British steamer Dalmore is reported to have sailed from Kobe August 7 for Victoria, B. C. Nothing is known here regarding this vessel's movements, other than she sailed from Alexandra for Colombo on June 10 last.

White Rock Lithia Water

White Rock is Complete Satisfaction at a Moderate Cost. To Pay More is to Gain Nothing. To Pay Less is to Lose Much

As a dilutant, it blends as perfectly with the morning glass of milk as with the last soothing "night-cap" of Scotch.

Its health-giving qualities purify and stimulate the entire human system, insuring a hopeful alertness of mind and constant vigor of body.

It lacks the bite and sting of ordinary charged mineral waters and is, above all,

ABSOLUTELY PURE

NO VIRTUE CUP GAMES THIS WEEK

There will be no Virtue cup cricket games to-morrow as a result of the inter-city game at Vancouver, but a couple of friendly games will be played. The Victoria C. C. and the Civil Service have arranged a game, and it is likely that the Garrison will play one of the local teams. All communications on cricket business during the next two weeks should be addressed to P. C. Payne, 941 Courtney street, as H. S. Radcliffe expects to be out of the city during that time.

NO ENTRIES FROM CANADIAN OARSMEN

For probably the first time in the history of the National regatta, which is being held to-day and to-morrow at Duluth, no Canadian oarsmen are entered, and the International flavor which has always added so much interest to the big rowing carnival will be lacking. There is a record entry list, the sculling events, probably owing to the absence of the Canadian cracks who have been conspicuous winners, being particularly well filled.

CLIMBS PIKE'S PEAK.

Colorado Springs, Col., Aug. 11.—Frank Kunce, of Loveland, Colo., was crowned motorcycle champion of Colorado, and won a prize of $400 through his prowess in negotiating the Pike's Peak motor racecourse, a distance of 12½ miles, with an ascent of approximately 6,000 feet, in 22 min. 3 secs.

FINALS WILL BE PLAYED TO-MORROW

Interest Increases as Red Cross Tennis Tournament Draws to Close

As the finals of the Red Cross tennis tournament draw nearer, the interest grows in intensity and the matches are closer and more exciting.

The ladies' singles yesterday produced two good matches, curiously enough with the same score, Mrs. Rickaby defeating Mrs. Broome 7-5, 6-2, and Miss Rickaby defeating Mrs. Schwengers 7-5, 6-2.

The men's singles were all two-set matches, although many of the games in all of the matches were won after deuce and advantage had been reached. The match between Hudson and Clute was well worth watching, especially in the first set. Hudson was in splendid form, although Clute set him a hard pace. This told on Clute in the second set, as he had just finished two other matches, a mixed and men's doubles, both of them hard games.

A close match was played between Mrs. Elgee and Miss Bradford and Miss Bryant and Miss Ross, the former winning 9-7, 9-7. Garrett and Brown went down to defeat by Lindsay and Clute, the former pair putting up a game far below form, while the winners were on top of their form and made no mistakes. Miss Lawson and Humphries against Mr. and Mrs. Clute was one of the prettiest matches played in the tournament, and round after round of applause was given during the match, the former pair winning in three sets. Another excellent match between Mrs. Rickaby and Rev. Mr. Ryall and Mrs. Rickaby and Lindsay was not finished on account of the poor light. The score stood 4-6, 6-3, 6-6 when the game was stopped. The complete scores are as follows

Ladies' singles—Mrs. Rickaby beat Mrs. Broome, 7-5, 6-2; Miss Rickaby beat Mrs. Schwengers, 7-5, 6-2.

Men's singles—Fairbairn beat Martin, 6-1, 6-2; Jephson beat Archibald, 6-4, 6-3; Hudson beat Clute, 6-4, 6-1.

Ladies' doubles—Mrs. Elgee and Miss Bradford beat Miss Bryant and Miss Ross, 9-7, 9-7; Miss Rickaby and Miss Hudson beat Miss Garesche and Miss Dod, 6-3, 6-2.

Men's doubles—Lindsay and Clute beat Garrett and Brown, 6-2, 6-3.

Mixed doubles—Miss Lawson and Humphries beat Mr. and Mrs. Clute, 3-6, 6-3, 6-4; Miss Idiens and Brown beat Miss Leeming and Gordon, 6-3, 6-3; Mrs. Rickaby and Rev. Mr. Ryall against Mrs. Rickaby and Lindsay, 4-6, 6-3, 6-6 (unfinished).

Veterans' singles—Case beat Coates, 6-2, 6-0; Bone beat Ashdown by default; Richardson beat George by default.

Consolation singles—Yorke beat Jameson by default; Heyland beat Flett, 6-4, 6-3; McIndoe beat Neary, 6-2, 6-1; Poisson beat Radcliffe by default; Poisson beat Yorke, 6-4, 6-4.

The semi-finals of the men's doubles have now been played, and Jephson and Martin will meet Lindsay and Clute in the finals. The semi-finals of the ladies' singles, ladies' doubles, men's singles, veterans' singles and mixed doubles are all being played this afternoon and should attract a big crowd of spectators.

The semi-finals of the consolation singles will be played early on Saturday afternoon, and the finals at a later hour. A large number of chairs will be placed on the grounds along side Nos. 1, 2 and 3 courts on which the main events will be contested. So much pleasure was expressed at the exhibition of men's doubles last Saturday that the committee are now considering the advisability of having another with B. P. Schwengers (Canadian champion) and H. G. Garrett (ex-champion of Alberta), as two of the contestants, two others to be selected later. The matches will start at 2 p.m., and competitors must be on the courts ready to play when the games are called. A repetition of the appeal to members of the club, visitors and all who have taken part in this tournament to be present with their friends on Saturday afternoon is now made, and they are also reminded of the informal dance at the Empress on Saturday evening from 9 to 11.30. The following is the complete draw for to-day:

2.30—Mrs. Rickaby plays Miss Idiens, (semi-finals); Mrs. Clute plays Miss Rickaby, (semi-finals).

3.30—Lindsay plays Fairbairn (semi-finals); Mrs. Clute and Mrs. Schwengers play Mrs. Elgee and Miss Bradford; Miss Lawson and Miss Wolfenden play Mrs. Rickaby and Miss Hudhon (both semi-final).

4.30—Miss Idiens and Brown play Miss Lawson and Humphries (semi-finals); Mrs. Rickaby and Rev. Mr. Ryall play Miss Rickaby and Lindsay (unfinished game from yesterday); Case plays Bone (veterans' single semi-final).

5.30—Hudson plays Jephson (semi-finals); winners of Mrs. Rickaby and Rev. Mr. Ryall and Miss Rickaby and Lindsay play Mrs. Elgee and Phelan (semi-final); J. G. Brown plays Richardson (veterans' singles semi-final); Heyland plays King; Tuckwell plays Gordon; Porritt plays McIndoe (all three consolation singles).

MANY ENTRIES FOR LONG DISTANCE SWIM

Annual Through Victoria Contest Will Have Record Number of Starters

The annual through-Victoria swim will be held to-morrow afternoon, starting from James Bay at 2.15 and finishing at the Gorge, it is expected, between 3.30 and 4 o'clock. There are a number of entries for this year's event, and as there are some of the city's best swimmers entered it is expected that good time will be made. Four silver medals have been presented by C. R. Griffen, H. C. Newton, Messrs. Moore and Wenger and the V.L.A.S.C.

Seven ladies have entered, four unattached and three from the V.L.A.S.C., and thirteen men, while it is expected that there will be a few more entries before the lists close. The following is the entry list to date: A. Ellis and W. Alexander, unattached; Robin Grey, C.A.S.C.; Ben Robinson, V.A.S.C.; John Wenger, Angus McKinnon, Len Francis, H. Walton, W. Walton, G. Bidlake, F. Marsh, G. Young and A. McKiel, Y.M.C.A.; Miss McEachren, Miss Hughes, Miss Winnie Painter, Miss H. Nicholson, unattached; Mrs. VanDong, Miss Audrey Griffen, Miss M. Davis, V.L.A.S.C.

H. E. Newton will act as starter and timer, and Chas. D. Moore as clerk of the course. The department of marine has promised to have a launch on the course for the convenience of the swimmers.

BEAVERS WIN LONG GAME FROM MINERS

Vancouver defeated Butte yesterday at the latter city in a free-hitting extra-innings game by a score of 15 to 13. Butte had a lead of 9 runs in the second innings, but could not hold it, Schroeder blowing up in the seventh and letting 6 runs across the pan. The score:

Vancouver—	A.B.	R.	H.	P.O.	A.	E.
Murphy, 1 b.	6	1	4	8	1	0
Hamilton, 3 b.	7	0	1	3	1	0
Calvo, l. f.	5	1	2	1	4	0
Brinker, c. f.	6	2	2	3	0	0
R. Brown, 2 b.	4	2	1	2	6	1
Stevens, s. s.	5	2	2	5	1	1
Follman, c.	6	3	2	9	2	0
Hood, r. f.	7	2	3	5	0	0
Acosta, p.	1	0	1	0	0	0
Bob Brown, l. f.	2	1	0	0	0	0
Callahan, l. f.	1	1	1	0	0	0
Totals	50	15	19	36	15	2

Butte—	A.B.	R.	H.	P.O.	A.	E.
Grover, 2 b.	4	2	2	7	4	1
Levin, 3 b.	7	2	2	2	4	0
Fitzsimmons, s. s.	6	1	3	4	7	1
Hillyard, l. f.	7	1	2	2	0	0
Tucker, r. f.	6	1	4	0	0	0
Kippert, c. f.	5	1	2	1	1	0
Hoffman, 1 b.	6	2	3	10	1	0
Jones, c.	3	1	0	8	1	0

Totals	52	13	20	36	19	2

*Batted for Jones in twelfth inning.

Score by innings—

Vancouver	0 0 1 3 0 0 6 1 1 0 0 3—15
Butte	2 7 0 0 0 1 0 1 1 0 0 1—13

Summary: Two-base hits—Kippert (2), Tucker (3), Hood, Murphy, Brinker, Hillyard, Hoffman. Three-base hits—Levin, Hamilton, Brinker. Sacrifice hits—Murphy, Jones. Double plays—Jones to Fitzsimmons; Levin to Grover to Hoffman; Fitzsimmons to Grover to Hoffman; Kippert to Levin. Hit by pitched ball—By Schroeder, R. Brown.

CALIFORNIANS WILL MEET SEATTLE STARS

Strachan Defeats Tyler and Will Play Hugh Kelleher in Semi-Final

Seattle, Aug. 11.—Two fast Seattle players will oppose the two California experts in the semi-finals of the men's singles of the Washington State Tennis tournament to-day. John Strachan, the San Francisco player who won the Northwest title last week, defeated Joe Tyler, the Northwest veteran, 7-5, 6-3, yesterday, and will meet Hugh Kelleher, of Seattle, to-day. Clyde Curley, the only other Californian left in the men's singles, will be opposed in the semi-finals to-day by Sam Russell, another local star.

As a result of the play in the ladies' singles, two Seattle and two California women are left in this event. Mrs. Cushing and Miss Kingcade, playing in their usual steady fashion, put out Miss Lambuth and Mrs. Boyd, respectively, while Miss Sarah Livingstone defeated the Portland entry, Miss Fording, and Mayme McDonald won from Miss Schreiner.

One of the upsets of the tournament took place in the men's doubles, when the local pair, Anderson and Mansel-Smith, beat Barber and Curley, Californians, in a hot three-set affair, 6-3, 4-6, 6-3.

The women's doubles saw the favorites win.

One of the best mixed doubles affairs of the week was the match in which Miss Dempsey and Strachan nosed out Miss Kingcade and Tyler, 6-3, 15-13. It was a case of Strachan against the field, the victory going to his team only through his individual work.

INDIANS TAKE TWO FROM THE ELECTRICS

Spokane took both ends of a doubleheader from the Great Falls club at the former city yesterday, winning the first 3 to 2 and the second 4 to 1. Evans and Zamloch were the winning pitchers. The score:

First game.

Spokane—	A.B.	R.	H.	P.O.	A.	E.
Gislason, 2 b.	2	0	0	3	2	0
Mensor, r. f.	3	1	0	2	1	0
Harper, l. f.	4	1	2	2	1	0
K. Williams, c. f.	3	0	1	0	0	0
Sheely, 1 b.	3	1	1	11	0	1
Guigni, 3 b.	4	0	1	1	4	1
McGinnis, s. s.	4	0	0	0	3	2
Murray, c.	3	0	0	8	1	0
Evans, p.	0	0	0	0	0	0
Totals	29	3	4	27	15	4

Great Falls—	A.B.	R.	H.	P.O.	A.	E.
Bennett, 2 b.	4	0	1	3	2	0
Garrity, s. s.	4	0	1	0	2	0
Kelly, l. f.	5	1	1	5	0	0
Sheehan, c. f.	3	0	1	2	0	0
Boeckel, 3 b.	3	0	1	0	1	0
Pappa, r. f.	4	0	0	1	0	0
Haworth, c.	4	0	1	6	2	0

Haworth, c.	3	0	0	6	1	0
Hester, 1 b.	2	1	0	8	0	1
Killilay, p.	2	0	0	0	2	0
*McArdle	1	0	0	0	0	0
Totals	23	1	3	21	9	2

*Batted for Killilay in seventh inning.

Score by innings—

Spokane	1 1 0 0 2 0 0—4
Great Falls	0 0 0 0 1 0 0—1

Summary: Two-base hit—Gislason. Sacrifice hits—Harper, McGinnis. Stolen bases—Gislason, Mensor, Zamloch, Kelly. Double play—Guigni to Sheely. Bases on balls—Off Zamloch, 6; off Killilay, 3. Struck out—By Zamloch, 8; by Killilay, 5. Wild pitch—Zamloch. Left on bases—Spokane, 6; Great Falls, 7.

BREEZY BITS

There are many entries for to-morrow's through-Victoria swim, including seven ladies, and providing weather conditions are good, fast time will undoubtedly be made.

Toney, the Cincinnati pitcher, is the original hard-luck hurler of the National League this year. In his last two games he has allowed but five hits and has lost them both, the Reds failing to score behind him in either contest.

Claiming that he beat Freddie Welsh fairly for the lightweight championship, Ad Wolgast is now clamoring for a title bout with Benny Leonard or Johnny Dundee. However, this will not interfere with the Welsh-White championship contest at Colorado Springs on Labor Day.

HENNESSY BRANDY

—A Refreshing Invigorating Summer Drink.

Hot days are exhausting. You need an invigorating drink, that will restore vitality—not lower it. Use a little Hennessy Brandy with your mineral water, plain water or ginger ale.

It forms a wonderfully refreshing draught, of the most delicate, satisfying flavor.

Every bottle of Hennessy Brandy contains the natural yield of the Cognac vineyards — every bottle is sealed, capsuled and labelled in Cognac — and the contents of every bottle of Hennessy Brandy has obtained the white certificate of absolute purity from the French Government.

Look for the Label on every bottle of Brandy you buy.

The largest sale of any Brandy in the world.

FEDERAL LEAGUERS AFTER THEIR MONEY

Suits Filed Against Promoters of Defunct Organization.

New York, Aug. 11.—New suits by players who had contracts with the new defunct Federal League, several such suits having been instituted in the past week, are regarded as somewhat significant and the information is that they will result in disclosing interesting things in connection with Federal financial operations. Suits of Billy Bradley and Claude Cooper, former Brooklyn Fed. players, seek to hold the Wards personally responsible for money due under contracts the Brooklyn Federals entered into, it is said. Suits against the Newark Feds., one of them by Vin Campbell, are against the Newark Federal League Ball Club, but it does not appear it has any assets. The Feds when they entered Newark organized two companies, one to run the ball club, the other to hold the real estate. The one which ran the ball club is defunct. Campbell to win his suit must convince the court that the two companies are the same.

It is said the purpose of the suits is to tie up the money that organized ball was to pay the Wards and Sinclair for quitting the game, but it does not appear that any of this money has been paid over so far, a halt having been called when the Baltimore Federals started their recent suit.

TORONTO CYCLIST IS MAKING GOOD

Newark, N. J., Aug. 11.—Arthur Spencer, the Toronto cyclist, who has recently jumped to the professional ranks, and who has been the sensation of the season at the Velodrome, was a star of the recent meet.

In the presence of 16,000 people Spencer beat Alfred Goulet, the famous Australian speed fiend, in the Brassard event at one mile.

Next he tackled Francisco Verri, Italian rider, in a three heat match race at two-thirds of a mile. Spencer won two of the heats. He is regarded as the equal of any of the riders, home or foreign, competing in the United States.

THORPE'S old English GINGER BEER has a smack of its own

TACOMA WINS FAST GAME FROM SEATTLE

At Seattle yesterday, the Giants lost to the Tacoma Tigers by 2 to 1, after nine fast innings. Eastley held the Tigers to 4 hits, while the Giants annexed 6 safe blows off the delivery of Hartman. However, bad judgment by the home team lost the contest. The score:

Seattle—	A.B.	R.	H.	P.O.	A.	E.
Shaw, r. f.	4	1	2	0	0	0
Healey, 3 b.	4	0	1	2	3	0
W. Cunningham, l.f.	4	0	1	1	0	0
Eldred, c. f.	3	0	0	4	0	0
McIvor, 1 b.	3	0	0	10	0	0
Morse, 2 b.	3	0	1	1	2	0
Raymond, s. s.	3	0	0	2	5	1
T. Cunningham, c.	3	0	0	7	0	0
Eastley, p.	3	0	1	0	2	0
Totals	30	1	6	27	12	1

Tacoma—	A.B.	R.	H.	P.O.	A.	E.
Wuffli, 3 b.	5	0	0	0	2	0
Leard, 2 b.	4	0	0	3	4	0
Bigbee, c. f.	3	0	1	2	0	0
Bohne, s. s.	3	1	1	6	3	1
Fries, l. f.	4	1	0	1	0	0
Thompson, 1 b.	2	0	0	9	0	0
Bankhead, r. f.	3	0	1	4	1	0
Bartholomy, c.	4		1	2	2	0
Hartman, p.	2	0	0	0	2	0
Totals	31	2	4	27	14	1

Score by innings—

Seattle	1 0 0 0 0 0 0 0 0—1
Tacoma	0 0 0 0 0 0 2 0 0—2

Summary: Two-base hits—Shaw, Morse. Three-base hit—W. Cunningham. Sacrifice hit—Bankhead. Stolen bases—Bigbee, Bohne, Fries. Struck out—By Eastley, 5; by Hartman, 1. Bases on balls—Off Eastley, 4; off Hartman, 0. Hit by pitched ball—Hartman, by Eastley. Double play—Leard to Bohne to Thompson. Time of game—1.30. Umpire—Finneran.

ADVERTISE IN THE TIMES

German Boldly Attacks Militarism

From the Toronto Mail and Empire.

In the past few weeks there has arisen in Germany a prophet who bids his countrymen abandon the false gods they have been following for more than a generation. His preaching is not more significant than the fact that the German censorship has not excluded it from a leading newspaper and has not forbidden other newspapers to comment upon it, favorably or not as they are inclined. Whether the article in question will have any practical effect upon the war is a question we cannot decide; but we may be not astray in seeing in it an indication of a general dissatisfaction with the methods and ambitions of the war lords. Certainly it is inconceivable that 18 months ago such an article as that written by Professor Forster, of Munich, would have received the hospitality of a German newspaper, or that the points he raises would provoke serious discussion. It is more likely that he would have been interned.

A Voice From the Past.

The article, which we are told by the London Times has excited more interest in Germany than any that has appeared in months, and is in some respects the most interesting that has appeared in Germany since the beginning of the war, is entitled "The Work of Bismarck in the Light of Great German Criticism." Great German, it must be explained, was the name given to the party which in 1848 refused to accept a solution of the German question based on the exclusion of Austria. The Great Germans were defeated in the national convention which sat at Frankfort when the Imperial crown was offered to the King of Prussia. By this the will of the nation was declared. Eighteen years later it was carried out by Bismarck in a manner that they had not anticipated. Since then the Great Germans have been politically dead, as dead as the Jacobites or the Tories who opposed the Reform Bill. They disappeared on the day when Prussia conquered and then united Germany. Koniggratz was their grave, and the glory of Sedan reconciled all but a few intransigeants. In the new Germany they were ignored and forgotten.

Germany's World Task.

One of the leaders of this movement was Constantin Franz, who refused to be reconciled to the new regime, and whose work upon the subject challenging and denouncing the whole career of Bismarck has been rescued from oblivion by Prof. Forster. The Herr professor adopts Franz's teaching and on this basis attacks the ideals that his country has been cherishing for years and is now bleeding for. He asks:

"Wherein does this German world task lie? It lies in the international calling of Germany as it was expressed in the Holy Roman Empire of the German nation—Germany was then the basis for the union of the whole of Christendom. It united German, Slavonic, Magyar and Romance nations, and created the political foundation for the civilizing Christian work of the most different races.

"This was the task of old Germany, and what have we instead? Nothing but a barren doctrine of the individual national state which is in itself the antithesis and destruction of all Christian civilization.

"Is not Germany called to raise herself, above the narrow circle national ideas and interests, to t point of a universal state standi above the nations, in order by h example to direct also the other we ern nations, and thereby herself, c build the foundation for a communi of will in the western world?

Germany on "Hunger Rations."

"It is truly astonishing that t German people, which has such gre traditions of its world functions, h for 40 years endured to be put hunger rations for its ideals. Mu unrest and dissatisfaction in Ge many may have had its real cause the wretchedness of the national ho zons . . . the yawning dullness mere national interests became unb terable. . . It is incredible what h been suggested in this connection school boys in many centres of n tionalism. As though the continu noisy rattling of the sabre about t dignity and glory or one's own nati had any formative value, and did n rather dry up the soul in spite of the romanticism with which the ba renness of this national self-worsh was veiled!"

A Witness to the Truth.

The strength of Professor Forster position is that he strikes not merc at the external manifestations of t new nationalism, but at its very hear If man differs from animals in th he acts consciously, civilized men di fer from barbarians in that they a not merely by instinct or passion, b in obedience to an idea. It is th which the western nations have see in that they have put in the centre their controversy with Germany a abstract conception; they call it mil tarism. The expression may be inade quate, but there lies below it a recog nition of the fundamental fact again which the struggle is directed; it is n merely against machines and ships a cannon and armies, but against a fal idea and perverted thought, and the have always maintained that the tr tragedy of the war was that Germa was not merely an infidel, but a pe vert; she was a country which ha deliberately mistaken a lie for truth, and after she had seen the lig had chosen darkness. Of this we ha a welcome witness in Prof. Forster.

A LESSON OF THE WAR.

The notion of some vague interna tional police force which shall ensu our liberties is a dream. The subtles most persistent, and most aggressi of the powers supplying and controllin that police force would master it secret, and then become the overlord of the world. The history of the pres ent war has shown one terrible fac Unprepared nations are now at a fa greater disadvantage than they used t be. It is not too much to say that any nation which was a member the League of Peace were to carry o a clandestine manufacture of grea guns and high explosives, nothing coul stop its domination of mankind. Th power which possessed itself of the instruments of destruction, while thos they intended to subdue were withou such provision, could not be resisted.—The Spectator.

The reading lesson was on and th word "furlough" occurred. Mis Jones, the teacher, asked if any littl girl or boy knew the meaning of th word. One small hand was raised "Furlough means a mule," said th child. "Oh no; it doesn't," said th teacher. "Yes, ma'am," insisted th little girl. "I have a book at hom that says so." Miss Jones told th child to bring the book to school. Th next morning the child came arme with a book, and triumphantly showe a picture of an American soldier rid ing a mule, under which was the cap tion—"Going home on his furlough."

Teacher (to new girl): "Now, Dolly I'll give you a sum. Supposing tha your father owed the butcher fifte pounds eleven shillings and twopence halfpenny, seven pounds three shilling to the bootmaker, fourteen pounds an ninepence to the milkman and thirty one pounds nineteen shillings an threepence-farthings to the coal mer chant, how much would he owe alto gether?" Dolly (confidently): "Nothin at all, for we should very soon move t another neighborhood!"

SUDDEN DEATH

Caused by Disease of the Kidneys.

The close connection which exists between the heart and the kidneys is well known nowadays. As soon as kidneys are diseased, arterial tension is increased and the heart functions are attacked. When the kidneys no longer pour forth waste, uremic poisoning occurs and the person dies, and the cause is often given as heart disease, or disease of brain or lungs.

It is a good insurance against such a risk to send 10 cents for a large trial package of "Anuric"—the latest discovery of Dr. Pierce. Also send a sample of your water. This will be examined without charge by expert chemists at Dr. Pierce's Invalids' Hotel, Buffalo, N. Y. When you suffer from backache, frequent or scan

VICTORIA AVIATOR'S FUNERAL IN ENGLAND

Flight Sub-Lieut. Douglas Whittier Buried With Full Military Honors

The funeral of the late Flight Sub-Lieut. Douglas Whittier, whose death in an accident which occurred while he was monoeuvring over Thanet, in England, caused widespread sorrow in this city, where he was born and raised, took place at Minster, Kent, on July 22. The young officer was buried with full military honors, the other officers and men of the station, as well as representatives from the neighboring stations, being present. The coffin was borne on a gun-carriage drawn by six horses and was draped in a Union Jack. A band was in attendance and there was a firing party at the grave, where a brief service was conducted. Eight of Lieut. Whittier's fellow officers in the aviation service acted as pallbearers. The grave was covered with many beautiful floral tributes, which reflected the high esteem the young Victorian had won among a wide circle of acquaintance during his relatively short residence in England.

The following account of the accident appeared in a newspaper published in the vicinity, a copy of which has just been received:

"A shocking fatality to an airman occurred on Thursday during a flight over a cornfield in Thanet. The airman, a young Canadian named Flight-Sub.-Lieut. Douglas Whittier, aged about twenty-four years, was performing some evolutions high in the sky when his machine, a one-seater Bristol scout, was seen to take a corkscrew dive. The machine sideslipped after banking and fell some hundreds of feet before it suddenly commenced to describe a close spiral, head downwards. In this manner it crashed to the earth with the pilot underneath. When picked up he was dead, crushed by the weight of the engine.

"In a sparsely populated neighborhood it was some little time before help could reach the wreckage, but it is thought that nothing could have been done for the poor young fellow, even if assistance had been immediately forthcoming.

"Flight Sub-Lieut. Whittier came to this country from Canada a year ago where he had taken an aviation course and a few months later qualified as an officer.

"Soon after the tragedy occurred, the police were informed and the remains were conveyed to a mortuary, there to await the inquest.

"A spectator, who was in a motor-car, said that in the bright sunshine of a perfect day the circling of the aeroplane looked beautiful as he and a companion watched it. For a time they lost sight of the machine in the glare of the sun, and when they next saw it the aeroplane still at a great height, was coming down in somersaults. For a moment the spectators thought the pilot was performing daring looking evolutions, but though—possibly owing to the great height—the descent did not seem to be unusually rapid—it became clear that something had gone wrong. As the distance from the ground decreased the machine fell at an alarming rate, and began to take the fatal spiral dive, with nose sharply down. In ever-increasing circles it dived to earth, and parts of the wings were seen a moment later sticking up amongst the ripening corn. The onlookers could not say if the engine was going during the dive."

Letters received from Sub-Lieut. Whittier's fellow officers express the deep sorrow cast by the tragedy over not only the camp where he was stationed, but the entire district in which he had made many friends both within and without the service. All unite in describing him as "half the life of the camp" and their most skilful aviator. He had just returned from France where he had taken a machine and with the other members of his squadron expected to leave for the front in a few days. He was testing a new machine when the accident happened and the fatality evidently was due to engine trouble. One of his grief strick colleagues in Wing 3 has sent the following lines, taken from James Whitcomb Riley's verses, suggested to him by the death of his comrade:

AWAY.

I can not say and I will not say
That he is dead—he is just away!

With a cheery smile and a wave of the hand
He has wandered into an unknown land.

And left us dreaming how very fair
It needs must be since he lingers there.

And you—Oh, you, who the wildest yearn
For the old-time step and the glad return.

Think of him faring on as dear
In the love of There as the love of Here.

And loyal still as he gave the blows
Of his warrior strength to his country's foes.

Mild and gentle as he was brave,
When the sweetest love of his life he gave

To simple things, where the violets grew
Pure as the eyes they were likened to.

The touches of his hands have strayed
As reverently as his lips have prayed.

When the little brown thrush that hardly chirred
Was dear to him as the mocking bird.

And he pitied as much as a man in pain
A writhing honeybee wet with rain.

Think of him still as the same, I say,
He is not dead—he is just away!

LEAVES MONDAY FOR CONVENTION

Chief Davis Will Go South for Gathering of Pacific Coast Fire Chiefs

On Monday Chief Davis leaves to attend the convention of the Pacific Coast Association of Fire Chiefs at San Diego. The gathering will be in session from August 21 to 25. The reason why the chief is leaving a week before the opening of that convention is that he is to join Chief Murphy, of San Francisco, in that city on Wednesday.

On Thursday next, for those chiefs who have arrived in San Francisco, there will be a demonstration in the bay of the fine motor-boat in service at the Golden Gate, and of fire fighting work.

Then on Friday some will go south by a special train, while Chief Davis will accompany Chief Murphy by motor to Los Angeles. The itinerary will be arranged so that the motor party will stop at the same places as the train, in order to view fire departments en route. The car is due to reach San Diego, the most southern city of California, on Sunday week. The chief will be joined by Mr. Doyle, of Vancouver, who will go south to the convention.

There will be a gathering of some 80 to 90 chiefs in San Diego, where the Panama California exhibition at Balbao park will be visited. Chief Davis has been asked to read papers at the gathering.

On the return the chief plans to spend some time visiting departments in Southern California, where much motor apparatus is in use. It is just two years since the association had a very large gathering here. In the past year it has lost Chief Shrewsbury, of Long Beach, who was killed in discharge of his duties. This gentleman was one of the most popular men, and took an active share in the Victoria meeting.

It is interesting to note that the organization grew out of the celebrated tournament here of the Northwest Firemen's Association in September, 1891, when Chief Deasy was the principal figure. A very successful tournament was held at the time, which attracted competitors from all over the coast.

UNDERTAKING GREAT WORKS IN CHINA

Party of Railway Specialists Leaves Here on Empress To-day

With a large project in the Orient in view W. F. Carey, of St. Paul, went out on the Empress of Russia this morning. Mr. Carey, who is the controlling figure in the American International Corporation, New York, will start upon the construction of 1,500 miles of new railway for the Chinese government and will also undertake the dredging and reclamation of the Grand Canal, 500 miles in length, the artificial waterway which starts at Hangchow, and connects the Yang-tse Kiang with the Hoang Ho river.

F. C. Hitchcock, of New York, who accompanied Mr. Carey, spent the evening at the Empress hotel, and in discussing the scheme said "the work will be done by coolie labor and to us Americans will be a decided change to see the dirt being moved in baskets. No machinery to speak of will be used on the work. Labor is only a few cents a day, so why buy expensive plants?"

"Yes, the wives and families of many of the men are going along," said Mr. Hitchcock, "and we will feel every security over there. We are hoping that the protection of the American flag will mean as much to us at least as the protection of the British flag has meant to Britishers engaged in similar enterprises when abroad."

"The work which Mr. Carey is to undertake in China is but the forerunner of vast construction projects which are to be launched in the Far East during the next few years. Railroad work similar to that carried on in Western Canada the past ten years will be taken up in Siberia and throughout the Far East and down through into Africa and in the countries in the Near East," said Mr. Hitchcock.

"We believe that the war is going to create a great deal of business of this character and its conclusion will see a demand on the part of many countries for vast military and commercial arteries, the need of which is being found out in the present conflict. People who believed that the conclusion of the Canadian transcontinentals would see the end of heavy railway construction did not figure upon the awakening which is taking place beyond the Pacific."

Among the members of the Carey party are: Warren Austin, corporation lawyer of St. Albans, N. Y.; Ed. Purdell and family, construction expert, formerly engaged on the Grand Trunk Pacific; M. Carey and family, widely known throughout the west and identified with many large Canadian construction contracts; J. H. Baer, Mr. Carey's private secretary, with his wife and family, and Mr. Buckner, auditor and accountant.

Pat Welch, Grant Smith, well known construction men, and other Canadian Northern men wished the Americans bon voyage at Vancouver.

Have you smoked "Noblemen" Cigars lately?

FULFILING TOURIST AGENCY CONTRACT

"C. and C. Circuit" Case Before Police Court; Some Unusual Features

When a tourist steps off the gangplank of a steamer here, and coupon in pocket, walks up to an automobile which he boards in place of an overflowing tally-ho, does the carrier break the law in allowing him to do so?

This question came up in the city police court to-day, when Alland Caldwell was charged with a breach of the by-law which regulates the standing of vehicles around the C. P. R. wharf offices to solicit custom.

Of the facts there was little dispute. On August 3 defendant drove his car down to the boat, and stationed it on Menzies street, between Belleville and Quebec streets. Then he set out to help his partner with the tourists boarding the tally-ho, but an overflow prevented four passengers from climbing into the sightseeing vehicles. At this juncture Caldwell offered the use of his automobile at $3 an hour, being unaware at that time that the passengers had in their pockets coupons of the Walter Woods & Co. agency, one of those with whom Cameron & Caldwell do business. These coupons entitle the user to a car ride on arrival, and are identical with all tourist forms of this nature. The four passengers took the ride, and paid the fares with the coupon.

City Prosecutor Harrison put in the box Mounted Constable Allen, and Harry S. Green, the latter of whom admitted he was a competitor of the C. and C. circuit for tourists. Green said he was quite satisfied that Caldwell knew at the time he plied for hire with the car that he was taking passengers away from him, nor had anything been said about the coupons.

For the defence J. A. Aikman placed both Cameron and Caldwell on the witness stand. Mr. Caldwell said the other tally-ho men stole the passengers having coupons of the C. & C. circuit by inducing them to think their vehicles were of that circuit, and then forced them to pay cash for the ride, refusing to accept the tickets. They had to watch the other drivers daily, or else similar incidents would occur.

The magistrate pointed out that it was not his duty to see to that phase, but to decide if the by-law had been broken.

Mr. Aikman relied upon the claim that the hiring was done when the tourist paid the agency for his coupons, and that the defendant was merely there to fulfil a contract.

The magistrate asked for authorities to be submitted showing whether there was any distinction between coupons and payment of cash, and whether the former was not an equivalent consideration. If so, did the voucher entitle the carrier to break the tariff regulations in order to fulfil the contract?

Coupons bearing date July 6 were submitted in evidence. A written argument is to be in by Tuesday.

TO PROVIDE RULES FOR SCREENING FOOD

City Health Committee Will Shortly Introduce Amendment to Council

The attendance of retail grocers at the meeting with civic health committee officials last evening was very small. The council will be asked by the committee in a short time to amend the present legislation providing for the screening of food when offered for sale.

What will probably be done will be to require stores selling food to use screen doors, and to have similar provision for windows. The doors will be required to close automatically. There are cases of course, where it would be difficult to close off everything of an edible nature by screening, and the use of fans and similar devices will also be recommended.

Another matter to which the chairman of the committee, Alderman Peden, has been giving attention for some time has been the licensing of restaurants, in order to secure more cleanliness in the kitchens. Many of the city restaurants have nothing to fear from any restrictive legislation, because the customers have their food prepared under hygienic conditions, but there are others which require attention. Municipal regulation to cover this phase would be necessary before further rules could be enforced.

The work of altering the market stalls for the meat stallholders is in progress, and while they will not be in use till next week, the improvement to be effected can already be appreciated. The meat stalls are being moved to the westernmost part of the building, and then more room will be given in the northern alleyway for the transaction of business. The market is also to be better lighted.

The city engineer reports considerable difficulty in securing labor for the asphalt surfacing of Johnson street, but hopes that better progress will be made in the near future.

Luncheon to New Secretary.—Miss Marlett, the new general secretary of the Y.W.C.A., was tendered a luncheon to-day by the board. The repast was served in the upstairs dining-room, and among the members of the board who were present formally to welcome the new secretary were Mrs. Adams, the president; Mrs. Niven and Mrs. Smith. Addresses were given by several of the ladies.

ARRANGEMENTS FOR PUBLIC FUNERAL

Obsequies of Hon. Edgar Dewdney Set for To-morrow Morning

The following arrangements have been made for the funeral of Hon. Edgar Dewdney to-morrow. Only a few intimate friends of the deceased will meet at the residence and accompany the remains to Christ Church cathedral, the following honorary pallbearers having been asked to attend for that purpose: W. C. Ward, Lindley Crease, K. C.; Henry Croft, D. R. Harris, Hon. D. M. Eberts, K. C.; H. Burroughs, A. P. Luxton, K. C., and Mr. Jacob.

On arrival at the cathedral the following gentlemen, F. O'Reilly, G. H. Dawson, F. B. Pemberton, Jos. Hunter, Fleet Robertson, D. O. Lewis, C. H. Rust and T. Gore, all surveyors or engineers, the profession followed by the late Mr. Dewdney in his early days in the province, will take charge of the remains and attend them to Ross Bay cemetery.

The service, at which the public is invited to attend, takes place at the cathedral at 11 o'clock, and amongst those who are invited to attend, and for whom seats are reserved, are his honor the lieutenant governor, members of the privy council, Admiral Story and staff, Col. Duff-Stuart and staff, members of the House of Commons, judges of the appellate and supreme courts, members of the executive council, ex-members of the provincial legislature, and his worship the mayor and aldermen.

ARRANGEMENTS MADE FOR BIG MEETING

Major the Rev. C. C. Owen to Speak Here Next Tuesday Evening

The details of the programme that is to be given in connection with the address next Tuesday evening at the First Presbyterian church by Major the Rev. C. C. Owen in aid of the returned soldiers are now practically complete. His worship the mayor will be in the chair, and there will be an opening number by the Arion Club.

Major Owen's address will come after a brief vocal programme to be furnished by Mrs. Longfield and Mrs. R. H. Pooley, and after the lecture there will be a collection, the proceeds of which will be given to the Returned Soldiers' Fund. Major the Rev. C. C. Owen has just recently returned from France, where he was in the firing line for more than a year with Tobin's Tigers (29th Battalion). It was hoped that Colonel Tobin himself might be out at the coast in time to speak at the meeting, but it is feared that he cannot make the journey from Montreal quickly enough to be here at the gathering.

After the talk by Major Owen, who, incidentally, is returning to the front in the very near future, there will be a five-minute "Call to Arms" by Captain Gordon Smith of the B. C. Bantams Battalion, and the proceedings will conclude with vocal solos by Mrs. Pooley, numbers by the Arion Club, and votes of thanks. Everyone is urged to attend the proceedings and give their assistance by subscribing generously to the collection in aid of the men who are now coming back in such numbers, wounded and disabled.

Thin People Can Increase Weight

Thin men and women who would like to increase their weight with 10 or 15 pounds of healthy "stay there" fat should try eating a little Sargol with their meals for a while and note results. Here is a good test worth trying. First weigh yourself and measure yourself. Then take Sargol—one tablet with every meal—for two weeks. Then weigh and measure again. It isn't a question of how you look or feel or what your friends say and think. The scales and the tape measure will tell their own story, and many thin men and women we believe can easily add from five to eight pounds in the first fourteen days by following this simple direction. And best of all, the new flesh stays put.

Sargol does not of itself make fat, but mixing with your food, it aims to turn the fats, sugars and starches of what you have eaten, into rich, ripe fat producing nourishment for the tissues and blood—prepare it in an easily assimilated form which the blood can readily accept. Much of this nourishment now passes from your body as waste. But Sargol works to stop the waste and do it quickly and to make the fat producing contents of the very same meals you are eating now develop pounds and pounds of healthy flesh between your skin and bones. Sargol is safe, pleasant, efficient and inexpensive. D. E. Campbell and other leading druggists in this vicinity sell it in large boxes—forty tablets to a package—on a guarantee of weight increase or money back as found in each large box. If you find a druggist who is unable to supply you with Sargol send $1.00 money order or registered letter to the National Laboratories, 74 St. Antoine St., Montreal, and a complete ten days' treatment will be sent you postpaid in plain wrapper.

EDUCATIONAL WORK AMONG ABORIGINES

Visitor Tells of Development of Indians at Dease Lake

To develop the children of the plains and to teach them the best features of civilization is the work of H. J. Kent, a visitor to the city from the Upper Dease Lake country. Mr. Kent is the principal of a boarding school for Indian children in that far away country. Technical education is his means of bringing all the faculties of the aborigines to work and making real men and women of them. He teaches them carpentering, painting, glazing, and inculcates habits of industry, cleanliness, and a desire for manly sports. The result is that the young people carry back to the reserve a desire for improvement which has a large influence on the future of the race.

Mr. Kent is an optimist. He believes in the future of the Indian. He sees great possibilities ahead. He tells marvelous tales of development of children which indicate that he is making good in his chosen calling. One boy was a perfect savage when he was turned over to the school by the Mounted Police. He would spring like a wild cat, scratch and grind his teeth. To-day he is rapidly advancing in his studies and promises to be a useful citizen. When taken by the police he was sent to bed in a hotel in Edmonton. In the morning they found him lying beneath the bed. Now he speaks English well and is bright and keen in his studies, yet it is only three years since he was placed in the school.

The country where Mr. Kent lives is low and wet. It is a hay country, but farther north and also west, on the British Columbia side of the Peace River, the country is more open and splendid for agricultural purposes. The town of Grouard near by has fallen from a live town of fifteen hundred to about one hundred. The Edmonton, Dunvegan & British Columbia railway passes near, but not through the town, hence its decline.

Vegetables are just as early at Dease Lake, Mr. Kent says, as they are near the coast. They had new potatoes and gree peas in July, but they try to secure the crops early in order to avoid the frosts. In the winter it is very cold, sometimes dropping to 60 below zero.

The Indians in the neighborhood are now building modern houses, partitioned off into rooms. In these they live instead of crowding round the big fire in the centre of a large building.

Mr. and Mrs. Kent leave to-morrow on their return trip. They are making their headquarters at the Dominion hotel in this city.

ITALIAN RED CROSS

Local Society Passes Formal Votes of Thanks to All Who Helped on Tag Day.

A meeting of the Italian Red Cross Society in this city was held yesterday in the Victoria hotel, with President Bianco in the chair. Votes of thanks were unanimously passed to the workers who helped in the collection, to the generous public who gave so freely, and to the Bank of Montreal for forwarding the money free of charge. The following were present: A. C. Bossi, secretary; E. Delmasetro, treasurer; and G. Balagno, G. Zarelli, V. Bargetto, P. Delitano. The Italian consul, N. Masi, came over from Vancouver to convey the thanks of his government to all concerned for raising the magnificent sum of $2,000 to help the cause of the society. Mr. Balagno was also thanked for the use of his premises in connection with the work.

Merchant's Picnic Poetry

Where are you going, my pretty maid?
I'm going out picnicing, sir, she said.
May I escort you, my pretty maid?
You certainly may, kind sir, she said.
Now, whose picnic is it, my pretty maid?
Why, the Retail Merchants, sir, she said.
You'll pay for my ticket; well, now that is FINE.
It's SIX BITS RETURN to the end of the line.
A jolly nice ride they give for it, too,
Far cheaper than staying at home, that is true.
There'll be baseball, and races, and dancing till dark.
Let's pretend we are married—oh, my, what a lark!
Be thankful you're not, sir, for—well—land sakes alive.
Instead of two tickets, you would have to buy FIVE!

NOTICE is hereby given that it has been decided to accord a public funeral to the remains of the late Honorable Edgar Dewdney, P. C., on Saturday, the 12th instant, at 11 a. m., from Christ Church Cathedral, and that such day has been appointed by order of the Lieutenant-Governor in Council a holiday.

G. A. McGUIRE,
Provincial Secretary.
Provincial Secretary's Office,
Victoria, August 9, 1916.

AMERICAN SHIPPERS STILL OBJECTING

Latest Protests Against Britain's Detention of Cargoes to Netherlands Trust

London, Aug. 10.—(Delayed.)—American shippers to Holland are bombarding the British government with protests as a result of detentions of cargoes consigned to The Netherlands Overseas Trust. It is understood here their protests may be backed by diplomatic action by Washington.

In April of last year, replying to a protest from Washington over the detention of the American steamship Seguranca, the foreign office made the following promise:

"While his majesty's government does not require cargoes to be consigned to The Netherlands Overseas Trust, it does accept a consignment in that form as proof that the cargo is intended for bona fide consumption in Holland."

This was widely circulated in the United States, not only in the press but in circulars issued by British consulates and various chambers of commerce.

In the last two months between 35 and 40 consignments to The Netherlands Overseas Trust have been held up, some in bonded warehouses in Holland, awaiting action, while others have been placed in the prize court. American shippers complain that the British government has not adhered to its pledge, and it is expected they will seek the assistance of the state department.

The Netherlands Overseas Trust an organization formed in Holland, undertook to guarantee that shipments consigned to it which Britain allowed to pass the blockade lines would be consumed in Holland, and that there would be no leakage to Germany. Prior to that time Germany had been drawing huge quantities of supplies from Holland. After the trust had been in operation for some time it was charged in many British papers that the trust was not keeping its word, and that a large part of the goods allowed to enter Holland was finding its way into Germany. Investigations were carried out by several British newspapers and tables of figures were printed to indicate the final destination of large parts of cargoes received by the trust.

FLOUR IS SOARING UP AT NEW YORK

New York, Aug. 11.—Flour sold in New York markets to-day at $5 to $9 a barrel, an advance of 70 to 80 cents a barrel, as a result of the increased price of wheat. One miller said there was considerable old flour in the hands of jobbers which still was selling at prices prevailing before the advance. The average flour for domestic use, it was said, now costs $8 a barrel, and householders will have to pay from 10 to 20 cents more a sack than before the advance in wheat.

The price of bread here has not yet been increased.

Chicago, Aug. 11.—No federal investigation of the sudden rise in the price of wheat is probable, according to information here to-day, but it was stated the United States state attorney would keep a watch on the activities of speculators on the wheat market to prevent unlawful manipulation. This was the statement of Mr. Clyne in denying rumors that a federal inquiry already had begun. Mr. Clyne said the sudden rise in wheat prices appeared to have been the result of a natural shortage and not due to any illegal combination of operators in New York or Chicago.

HANGING IN WYOMING.

Rawlings, Wyo., Aug. 11.—Wilmer Palmer was hanged early this morning at the state penitentiary for the murder of his wife.

V. W. HORWOOD BROKE DOWN AT WINNIPEG

After Ten-Minute Recess He Concluded Evidence at Ex-Ministers' Trial

Winnipeg, Aug. 11.—V. W. Horwood, former provincial architect, broke down this forenoon within half an hour of the conclusion of his lengthy evidence at the trial of Sir Rodmond Roblin, George R. Coldwell and J. H. Howden, former provincial ministers. He was being questioned by R. W. Craig, K. C., for the crown, when he suddenly turned to the wall behind him and began to sob. He tried to recover his self-possession and the judge came to his relief by announcing a recess. When court resumed ten minutes later Horwood answered questions in his normal tone. At 11 o'clock Mr. Craig was through and the witness left the box.

Horwood spent about 60 hours in the witness box on 14 consecutive court days. The stenographic record of his evidence fills close to 2,500 pages and contains nearly 750,000 words.

The witness said that statements in his private report to the late Hon. W. H. Montague, then minister of public works, which was produced by the defence in cross-examination, were untrue where they conflicted with his evidence at this trial.

"Dr. Montague and I were trying to protect the amounts and the destroyed contracts," he said.

The minister had given him some information for the report which had been used later in the legislature in Dr. Montague's review of construction work on the parliament buildings. Horwood quoted Dr. Montague as saying he was "getting to believe the report was true himself."

Horwood declared he had no desire to injure the accused, nor had he any hostility towards them. He had committed his admitted crimes on instructions from Dr. Montague, and Mr. Coldwell and Sir Rodmond Roblin had told him to "stick to it" during the sessions of the public accounts committee of the legislature. He told Mr. Craig he had never committed any of these crimes before or since he was provincial architect.

He said William Salt had been kept away "to protect the whole of us," not to protect himself particularly.

RELIEF TO W. VIRGINIA FLOOD SUFFERERS

Huntington, W. Va., Aug. 11.—Rescue parties yesterday and to-day proceeded far into the mountain districts carrying relief to thousands of homeless people in the Cabin Creek valley, which was swept by a flood on Wednesday, causing a loss of more than 60 lives and property damage reaching into the millions. Progress was slow as many bridges have been washed out and the roads are blocked by slides.

J. W. Hartless, of this city, who was at Eskadale on Wednesday morning when the cloudburst swept Cabin Creek valley, is the first eyewitness to reach Huntington from the flooded district. According to his story, at 8.30 o'clock in the morning Cabin Creek started rising at the rate of eight feet an hour, and continued until the creek reached from mountain to mountain. Houses floated downstream at the rate of one a minute. He watched almost all of Eskadale swept away. Whole families rushed for the hillside, he said, but some never reached safely. One could hear women praying on all sides. The dead by towns follows: Esrndale, 18; Dry Branch, 2; Hurricane, 1; Oakley, 7; Eskadale, 3; Leewood, 1; Cherokee, 1; Kayford, 3; Acme, 1; Ohley, 5; Brounland, 1; Red Warrior, 1. Scores of others are missing and are believed dead.

BORDEN AT HALIFAX.

Halifax, Aug. 11.—Sir Robert Borden spent this morning at the headquarters of the Conservative Association receiving delegations and meeting old friends. He will leave to-morrow for Ottawa.

LETCHITZKY WINS SUCCESSES STEADILY

Capture of Stanislau Significant Development; Russian General Was Not Distracted

Petrograd, Aug. 11.—General Letchitzky's impetuous attack on a front of sixteen miles between the Kolomea-Stanislau railway and the Dneister has been everywhere crowned with complete success.

It is now evident that the Austrians, fearing some such move, did all in their power to prevent it. Their attacks in the Carpathians, southwest of Kuty and south of Delatyn, were aimed at diverting the attention of Gen. Letchitzky by threatening his flanks. Bloody but fruitless attempts were made to advance on the river Koropice at a point only seven miles as the crow flies from Nizinoff, on the Dniester, occupied by the Russians, but the commander was not to be distracted from his purpose.

The energy with which the recent success is being developed will be far-reaching in its effects, especially when considered in relation to the Russian successes south of Brody. Both flanks of General von Bothmer's army now are overlapped by the Russians.

The importance and significance of the capture of Stanislau cannot be overestimated.

Since August 4 the Russian forces have captured 27,200 Austrians and Germans, it is stated.

NEW MYSTERY ABOUT DEATH OF M. DAVIS

Chicago, Aug. 11.—A new element was present to-day in the mystery surrounding the death at a Michigan avenue hotel of Morris Davis, a mining engineer of Victoria, B. C. It was the announcement made last night that Dr. Wm. N. McNally, coroner's chemist, in a chemical analysis of the contents pumped from the stomach of Mrs. Davis, who was found unconscious at the time of her husband's death, had discovered no poison of the kind believed to have killed Davis.

Mrs. Davis, after she regained consciousness, is quoted as saying that a chemical which her husband used in his profession must have got mixed with salts which she and her husband took for illness.

Dr. McNally said there was no chance of taking the poison for salts, as the one was in a bottle and the other in a box.

Mrs. Davis still was ill to-day.

INFANTILE PARALYSIS IN PENNSYLVANIA

Philadelphia, Pa., Aug. 11.—With 16 new cases of infantile paralysis and four deaths reported in this city for the 24 hours ended this morning at 9 o'clock, and a total of 58 cases in the city since Monday morning alone, the disease is beginning to assume serious proportions in the eyes of the medical authorities and renewed efforts are being made to check its growth and stamp it out. Since the first of July there have been 148 cases and 28 deaths.

Harrison, Pa., Aug. 11.—Pennsylvania's quarantine for infantile paralysis was extended to all borders of the state to-day.

CONNAUGHT TUNNEL THROUGH THE SELKIRKS

Ottawa, Aug. 11.—His royal highness the Duke of Connaught, at the request of Lord Shaughnessy, has graciously allowed the tunnel which the C. P. R. bored under the Selkirk mountains to be named after him. The "Connaught Tunnel," which is five miles long and double-tracked, gives the C. P. R. the lowest grade of any transcontinental line through the Selkirks. His royal highness went through this tunnel on July 17 last, when the bore had been completed.

This tunnel was bored in less than three years and therefore holds the world's record for tunnelling. The permanent tracks now are being laid in the tunnel and trains will be running through it soon.

GERMAN SUBMARINE SUNK IN THE MEDITERRANEAN

Galveston, Tex., Aug. 11.—The British steamship Normandier, which arrived here to-day from Genoa, reports having rescued 29 members of the crew of the Italian steamship Angelo, which had been sunk in the Mediterranean Sea, and landing them at Algiers.

The Normandier also brought a report of the sinking in the Mediterranean of a German submarine described as having two conning towers. The dates of the occurrences were not supplied.

VIENNA ADMITS HEAVY FIGHTING IN GALICIA

Berlin, Aug. 11.—Heavy fighting with the Russians all along the front in Galicia and northward, in Volhynia, was reported in the Austro-Hungarian army headquarters statement of August 10, received here to-day.

The repulse of Russian attacks in various sectors, notably along the Stockhod north of the Kovel-Sarny railway, was announced.

ATTACHED TO RESERVES.

London, Aug. 11.—Captain Knight, of New Westminster, B. C., has been attached to the reserves of the 17th Canadian Battalion, Highlanders.

OVER 15,000 TAKEN SINCE GORIZIA FELL

In Taking Entire Doberdo Plateau Italians Achieve Important Success

Rome, Aug. 10.—The number of prisoners taken by the Italian forces since the fall of Gorizia now exceeds 15,000, according to the correspondent of the Tribuna on the Isonzo front.

Italian cavalry and cyclists are clearing the valleys of retiring Austrians, and, according to the correspondent, the battle continues in favor of the Italians on both wings.

In their latest victories the capture of the entire Doberdo plateau and other points, the Italian forces have taken an important step toward clearing the salient formed from the bend of the Isonzo below Gorizia. The Doberdo plateau was the scene of heavy fighting early in the war, but the Austrians obstinately withstood the efforts of the Italians to win this important position. This fighting took place on a front some distance below Gorizia, the capture of which enabled the Italians to push forward in the direction of Trieste in this region.

San Martino del Carso, captured by Italian troops, is six miles southeast of Gorizia. It is about 20 miles from Trieste.

FOUR MORE VESSELS SUNK BY SUBMARINES

London, Aug. 11.—The torpedoing of the Italian steamship Sebastano, the French steamship Anette Marie and Henrielisa and the British ship Robert was announced in advices received today by Lloyds.

DEATH ANNOUNCED OF DAVID KAHN, OF PARIS

Paris, Aug. 11.—David Kahn, head of the international banking firm of Lazard Freres, is dead.

INFANTILE PARALYSIS.

New York, Aug. 11.—The epidemic of infantile paralysis showed another slight decline to-day, and the health experts who are fighting the scourge here were more hopeful that the cool weather which relieved the city yesterday would materially check the spread of the plague. The daily bulletin of the health department shows that during the 24 hours ended at 10 a.m. to-day 31 children died of the disease and 165 new cases were reported in the five boroughs of New York city. These figures compare hopefully with yesterday's, when 38 children were killed by the plague and 175 stricken.

HON. J. J. FOY'S ESTATE.

Toronto, Aug. 11.—The will of the late Hon. J. J. Foy, who was attorney general of Ontario, has been filed for probate. His estate amounted to $135,000, of which $25,000 is in insurance, $36,125 in real estate, $27,320 in mortgages, $25,000 in stocks and bonds, $15,000 in miscellaneous items, and $4,166 in cash. The insurance goes to Miss Marie Foy and the residue is divided into trust funds of one-third each between the three daughters, Miss Marie, Mrs. F. MacIntosh, of Vancouver, and Mrs. P. Reid.

ENGINEER KILLED.

Great Falls, Mont., Aug. 11.—Burlington passenger train No. 44, eastbound, struck an open switch on the Great Northern main line at Boru, half way between Cutbank and Shelby, to-day, and the two engines, express and baggage cars went into the ditch. Engineer A. W. Baker, of Great Falls, was crushed and scalded to death under his engine. Engineer R. J. Davis, of Great Falls, was injured perhaps fatally.

MOTOR RACES ON PIKE'S PEAK.

Colorado Springs, Colo., Aug. 11.—Fred Junio, of Detroit, came in first in the first group of four cars in the motor races on Pike's Peak, making the twelve and a half miles of the course in 24 minutes, 4.6 seconds. Roy Stentz, also of Detroit, came in second in 23:29.9, and Henry Jones, of Kansas City, was third in 26:05.3.

RIOT IN MINNESOTA.

Crosby, Minn., Aug. 11.—Rioting broke out on the Cuyuna range to-day. Working miners were badly beaten by I. W. W. pickets and when deputies arrived they were met by shots. The deputies retired and obtained reinforcements. Returning, they fired upon the pickets, but no one was killed so far as is known.

U. S. MUNITIONS TAX.

Washington, Aug. 11.—A ten per cent. profit tax on manufactures of munitions of war was agreed upon today by Democrats of the Senate finance committee as a substitute for the munitions taxes proposed in the House Revenue Bill.

In a baker's shop near Oldham they have a grandfather's clock in one corner and a small clock on the mantelshelf, and the grandfather's clock has not been altered according to the Daylight Saving Bill. "How is it," asked a customer, "you've altered the small clock and not the grandfather's clock?" "Well," replied the old shopkeeper, "the grandfather's clock's been telling the truth for over forty years, and I can't find it in my heart to make a liar of it now. But the small clock was made in Germany, so it be all right, as right as can be for that!"

N. YORK INTERESTED IN LOAN TO BRITAIN

Railroad Labor Situation in States Continues Factor of Great Importance

(By F. W. Stevenson & Co.)

New York, Aug. 11.—Buying orders accumulated over last night inspired by yesterday's show of strength, with the result that prices in the morning showed improvement. The betterment in values, however, attracted profit-taking by old longs which had a tendency to check the upward trend and cause moderate recessions. Great interest centres in the expected loan to Britain and some people are of the opinion that it will be secured on American stocks owned in Great Britain. If such should be the case it is taken to mean an end of the burdensome liquidation of Americans from that source and probably would provide the incentive for a bull market in the standard shares. Of course the railroad labor dispute, notwithstanding efforts of the federal mediation board for an amicable solution, still must be reckoned with as a market factor of the greatest importance.

LIGHT FROSTS AT POINTS ON PRAIRIES

Winnipeg, Aug. 11.—Light frosts touched a number of points in the prairie spring wheat area last night, the lowest temperatures registered being 28 at Red Deer, in Central Alberta, and 30 at Lloydminster, on the boundary between Alberta and Saskatchewan. At several other points the thermometer dropped to 32. Such light frosts, however, do little damage, as the crop is generally well advanced. Only where it is very backward will any harmful effects develop. The prospects are for further local frosts to-night and cool weather on Saturday.

There was no frost in the greater part of Saskatchewan nor in any part of Manitoba, and the cold weather will have a very beneficial effect in checking the spread of black rust.

U. S. RAILWAY SITUATION.

New York, Aug. 11.—No definite proposal for a settlement of the controversy between the railroad systems and the four brotherhoods of railway men had been made, so far as known, when the United States board of mediation and conciliation resumed to-day its efforts to settle the dispute by mediation. Both sides had stated their cases to the mediators and the situation was described by Martin A. Knapp, one of the mediators, as "a deadlock in the face of it." Mr. Knapp declined to prophesy as to whether a solution of the problem could be discovered. He said that the mediators were not in communication with President Wilson, and when asked if they would consult with his later, replied that it was impossible to say.

TO-DAY'S TRADING ON THE WINNIPEG MARKET

Winnipeg, Aug. 11.—Wheat closed ⅜c. higher for October, ⅛c. down for December and unchanged for May; oats, 1⅛c. up for October and ⅜c. up for December; flax, 10c. higher in October, 10c. in November and 6c. in December. The feature of the market was the big gain in flax. Winnipeg futures had all the markets beaten. Fluctuations for October went 42c. with the other two months nearly 4c. It was a very erratic market with a good volume of trade like Thursday. Traders preferred to deal in small quantities, but the activity of the markets made these small lots aggregate a fair amount. The cash demand was good for the first grade of wheat, but oats was very poor.

MONTREAL STOCKS

(By F. A. Borden & Co.)

Montreal, Aug. 11.—There was no very important feature in to-day's local trading. The market acted well, however, and most issues closed a little higher than yesterday's last. Scotia was the strongest stock in the steel group and offerings were light. The paper shares continue to rise, with Spanish common leading today. The liquidation in Dominion War Loan which was brought about by the talk of an approaching new loan seems to have run its course and the bonds sold to-day at 98¼. There will be no session to-morrow.

WEAKER CLOSING IN WHEAT AT CHICAGO

(By F. W. Stevenson & Co.)

Chicago, Aug. 11.—Although Liverpool showed an advance, this market opened slightly lower than yesterday's close. Broomhall indicated that at prevailing prices for wheat there will be a possibility of Australia being a heavy shipper, even at the high freight rates to be paid. The Winnipeg Free Press stated there was considerably more damage from black rust throughout Manitoba than was thought at first. Prices at Winnipeg failed to hold, however, and this market closed weaker.

GAINED ENTRY BY MISREPRESENTATION

Maximum Fine is Imposed on Man Arrested Near Savonas

The maximum penalty of $100 and costs or three months' imprisonment for entry into Canada by misrepresentation was imposed upon J. W. Lindner, who obtained admittance into the country several days ago by means of an expired Dutch passport. Lindner was tried at Mission before Justices of the Peace Verchere and Murray. The prosecution was in charge of Malcolm A. J. Reid, chief immigration inspector for British Columbia.

Lindner will be held by the immigration authorities for further investigation and an effort will be made to secure his internment in the Vernon detention camp for enemy aliens for the balance of the war. He was arrested sixteen miles north of Savonas by Immigration Officers Skinner and Christie after they had been on his trail since he made his entry into the Dominion. In his possession were found a secret code for use in connection with banking, some German postage stamps and some maps showing various copper mining centres of the United States. He claims he came from Everett simply as a tourist and denies that his visit was prompted by any sinister motives. His passport seems to have been issued by the Dutch government but it expired in March of this year.

Lindner admits that he lived in Germany for many years and also stated that he had worked in the Krupp gun works. He says he was in Germany when the war broke out. He did not give a very satisfactory explanation of how he came to have the maps relating to copper mining districts in his possession.

OUR LETTER BOX

Letters addressed to the Editor and intended for publication must be short and legibly written. The longer an article the shorter its chance of insertion. All communications must bear the name of the writer. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for MSS. submitted to the Editor.

SUNDAY'S TIRADE.

To the Editor:—As one of the many who are supporting prohibition I desire to record through the press my profound disgust at the speech made by Billy Sunday last evening at the Arena rink.

For blasphemy and foul language it was an exhibition that I defy the foulest man on earth to beat, and when one considers that this exhibition was given in front of a squad of small boys brought there for the purpose and in front of refined women and girls, I say it is time that action was taken by the police authorities. On no other occasion and for no other organization would such a thing be tolerated for a minute.

I cannot help thinking that the Prohibition party has done itself a vast amount of harm by bringing this American fanatic here, as was evidenced by the disgust expressed by many on the street cars after the show.

FRED REEVES.

Aug. 10.

ANOTHER VIEW.

To the Editor:—Let me thank you for your excellent report of the Billy Sunday meeting. It was very disappointing to turn to the columns of the Colonist on Thursday morning and find no mention of it. It seems to me that it is due to the readers of that paper to gives its reason why it was entirely ignored.

Over six thousand of the best citizens of Victoria thought it worth while to be present on the occasion and they had a right to have an account of it.

READER.

Aug. 10.

A CHANGE OF VIEWS.

To the Editor:—About one month ago John Day, in discussing Mayor Stewart's actions towards the working men in this city, said: "The mayor is not a proper person to represent any body of men and he is an enemy of the working man." This statement was made in front of the Labor hall, in the presence of a number of men, including the writer, and cannot be denied.

Immediately the mayor accepted office in a Conservative government John Day bursts forth into the same fulsome praise we are accustomed to in the Colonist's references to Sir Richard McBride, W. J. Bowser, McKenzie Mann & Co., and Pat Welsh.

Who is John Day trying to fool, the Hon. Alex. Stewart or the people?

What is this extraordinary power that compels a man like John Day, who poses as a friend of the worker, to swallow everything, even his own words, at the direction of Bowser, who a short time ago told the deputation of unemployed to pack their blankets, hit the track, and beat it?

Russian Players to Give Recital

LEO CHERNIAVSKY

Musical interest was wonderfully roused in Victoria by the coming last May of the three Russian players, Leo, Jan and Mischel Cherniavsky. No such demonstration, has ever been given musicians visiting here as that which followed each of their three recitals at the Empress ballroom on three successive weeks. All the programmes were interesting, the numbers unique in interpretation, the players individual in their art. And it is with keen anticipation that the public is looking forward to their final concert on the evening of August 30, which will be the first recital of their autumn season. Afterwards they will leave for Vancouver, Portland, Tacoma, Seattle and other United States and Canadian cities which will be visited in the course of their 1916-17 tour.

Victoria feels a sense of satisfaction that she is to be the first city to hear the gifted instrumentalists before they leave for their season's tour. During the summer they have been mixing study with recreation at their home at "Clovelly," Esquimalt, and have prepared a number of new works for their concert programmes during the coming season. The Schubert opus, with which they are opening their recital here is one of the compositions which they have prepared. If they played so magnificently at the end of an arduous season when they came here in May, it should be much more interesting to hear these musicians at the close of a three months' holiday. Every one will want to go, and the only doubt is that the hall will be quite insufficient to accommodate the audience.

LITTLE ROMANCE, MUCH STRAIN FOR ARMY NURSE

In the Hospitals These Heroic Women Undergo Hardest Possible Trial

War has its glory, the first for those who die and who are maimed, the second for those lucky enough to live. But the essence of the evil thing does not come out on the battlefields—there men died and are wounded in the heat of battle, are quickly removed by comrades hardened. It is in the hospitals that the grim war parades in its most terrible form, and here it is, too, that some of the finest heroism of the war comes—from the women nurses whose courage and gallantry, in its own way, is more than equal to that of the men who, a few miles further on, use powder, steel and gas against the enemy. The heroism comes out in the hospitals, too, in the delirium of wounded and fevered patients who fight their battles with the nurses holding them down to their beds, their sub-conscious selves devoted on one thing alone—defeating the enemy.

A Changed Opinion.

Not long after the war there began to appear on London streets women in uniforms of volunteer aid associations, some in blue, others in neat khaki with brass buttons, shoulder insignia and felt hats turned up on one side. One was inclined to scoff at first, looking upon this business as a bit of "swank." That is not right. Recently I have talked with a man who came down at the front with a fever and who for weeks lay in hospitals on the other side of the channel and on this. He used to be a little intolerant of these volunteer nurses, but he never will be again, nor will I after what he told me of the things that happened in hospitals and how these nurses with absolute self-sacrifice and marvelous courage do their work. It isn't all simple nursing; some of them scrub floors, do scullery duty and what not, nothing being too menial, nothing too hard. They slave to keep men alive, they gently make their death as easy as possible.

Under Terrible Strain.

There was a lowly army tailor, merely an enlisted man without a romantic past, a fever victim, who came to a base hospital in France. He was dying. In his delirium he made clothes and stitched blankets, going endlessly through his daily routine. He came to a bit of work which he had to finish, the making of a coat or something of the sort. Stitch by stitch his brain carried him through the operation, and his voice uttered every thought. Presently he finished and with the last stitch he died, his nurse, by his side, comforting him as she could.

A gallant young officer, wounded beyond repair, came to a ward. He lingered and finally worked into a delirium terrible and holy. He went again to the trenches, and then into a bayonet charge. His nurse was with him constantly, pressing him down as with his shouted orders and imprecations he rose in his bed, leading his men on. He knew, too, that the nurse was there, and as he gripped her hand he cried:

"Come on, nurse! We'll give them the bayonet now. Come on, nurse, over the parapet. Come on, nurse, we'll charge 'em!"

And he took her through the charge where he was wounded, to die, and at the end of the charge, in the hospital there, he did die, his nurse at his side.

Britain's Finest Women.

The finest of England's young womanhood is engaged in this task of nursing. How these young girls who 20 months ago had all their lives been carefully protected from the mild horrors of peace-life can stand the strain is a question, the way they do it is a marvel. They live in a world of death, blood and pain and with fortitude they do their duty well. The shrieks of the delirious sounding through the ward, the gasps of those who have been "gassed," the inanity of the shellshock patients whose minds are blank, the eyes that cannot see—a medley of suffering. In this the nurses live. In the story of the hospitals lies the truest story of the terribleness of war.

Germany has scheduled sparrows and storks to be killed and sold for food; in view of the terrible war losses, we should have thought that the Germans had other uses for the storks.

BRITISH GOVT. WILL WIND UP HORST CO.

Board of Trade Has Decided on Action Against Enemy Concern

London, Aug. 11.—The board of trade has decided to wind up the affairs of the Horst Company on the ground that it is an enemy concern.

D. J. Partello, of Chicago, who was said by officials of the company to be in control of the concern, appeared before the board and said the control lay in the hands of American and British stockholders. It is understood other companies in which Mr. Partello is concerned will meet with a similar fate.

Mr. Partello was represented in the hearings by James M. Beck, of New York, former assistant attorney general of the United States. Before the war the Horst Company was under control of Mr. Partello's brother-in-law, Baron Lewis von Horst, of Coburg, Germany, who was arrested soon after the war broke out as an enemy alien and interned. It is understood the baron had heavy interests in other companies which now are claimed by Mr. Partello. The American consulate has been asked to intervene on the ground that the companies affected now are controlled by American capital.

The board of trade began proceedings in June against the Hop Extract Company and the Horst Company, in the organization of which Baron von Horst, who formerly lived in California, was concerned. In addition to Mr. Partello other directors of these companies in the United States are Lillian Scott Troy and her father, Patrick Troy, of San Francisco.

A contemporary remarks that the Dresden deputies have been baiting Herr Batocki, but does not say what they expected to catch.

DO YOUR FEET BURN?
Then use Zam-Buk. There is nothing so soothing for tender, aching or blistered feet. It will end the burning, draw out the soreness, prevent blistering and give you perfect foot comfort.
Also there is nothing so good as Zam-Buk for sunburn, heat rashes, blistered hands, aching muscles, mosquito and insect bites, cuts, bruises, burns and all skin injuries and ailments. 50c. all druggists and stores.

An Unparalleled Victory

About a month ago we announced to the world our newest value—the $890 Overland.

In twenty-four hours and from every section of the Dominion we had received more orders than we could fill in several weeks.

So we immediately increased the production—filled the orders and notified our dealers not to push the model too hard as we were going night and day to catch up with orders.

Before the end of the first week orders were pouring in so rapidly that we decided to again increase the production so that there would be no disappointments.

But still bales of business continued to flood the factory.

Now we are shipping 500 of the new cars every single day and are fairly breaking our backs to keep pace with the great demand that now looks as if it never would cease.

We anticipated a great success, but we did not look for such a daily avalanche of definite shipping orders.

Such is public opinion—the strongest force, the greatest asset, in the world.

Never before has any automobile enjoyed such an unparalleled victory.

Step in and see this extraordinary car yourself today.

EXEMPTIONS UNDER ACT

Announcement Regarding Selling of Newspapers and Periodicals on Weekly Half-Holiday.

In the current number of the British Columbia Gazette the announcement is made that the selling of newspapers and periodicals has been added to the exemptions under the Weekly Half-Holiday Act. The order-in-council says:—"That the trade or business of selling newspapers and periodicals shall be exempt from the provisions of the Weekly Half-Holiday Act as to a weekly half-holiday, provided, that as to shops which would otherwise be subject to the provisions of the Act the exemption hereby made shall not apply in any case where any goods or merchandise, other than newspapers and periodicals, are sold therein during the time when such shop, except for such exemption, would be required to be closed under the provisions of the said Act."

Advantage of the provisions of the Act whereby, in certain unorganized districts, the half-holiday shall be fixed by order-in-council, is also taken in the cases of the towns of Telkwa and Mission City. In the former Saturday is named as the day on which the half-holiday be observed; in the latter, Thursday.

The following appointments are announced:—Dr. Lorris Z. Borden, to be medical officer at the gaol at Nelson, vice Dr. W. O. Rose, resigned; Geoffrey R. Venables, to be a member of the board of police commissioners for the municipality of Coldstream, vice F. C. Caven Fowle, resigned; Edwin Hickman, of South Vancouver, to be notary public.

The British Columbia Shipping Act is proclaimed officially, as in operation from August 1. The officials, as already published, are H. B. Thomson, superintendent; F. Buscombe, director, and the deputy minister of finance.

Notice is given that the Union Pacific Life Insurance Company has ceased to transact business in British Columbia and has reinsured all its outstanding insurance contracts in this province with the Canadian Casualty & Guaranty Company and has applied for a release on November 15 next of all securities deposited with the government.

"Is he a real friend?" "I don't think so. He's always willing to lend money to you if you need it but he isn't afraid to ask you to pay it back if you don't show any signs of ever going to do so."

SOCCER POPULAR GAME IN INDIA

Dr. Gray, British Government Physical Director, Returning to Calcutta

Dr. J. H. Gray, an exponent of muscular Christianity and official physical director and instructor of India's young manhood for the British government, was among the passengers who sailed for the Orient on the R. M. S. Empress of Russia this morning. Dr. Gray has had eight years experience in Y. M. C. A. mission and training work in India, part of the time acting as physical director of schools and colleges in India, in charge of a small staff of British instructors for the British government. He has just been enjoying a well earned holiday at his old home in New Jersey, and is returning on the Russia en route to his headquarters in Calcutta.

In the last five or six years a vast change has come over the younger element in India and they are now embracing western educational methods and physical culture methods with much enthusiasm. It was very difficult, and almost disheartening work at first, according to Dr. Gray, but about five years ago the tide commenced to turn and the country is adopting physical culture methods, games, recreations and the better observance of sanitary laws. Of course, this applies largely to the upper classes and the better educated among India's teeming millions. The lower or coolie class still has to be converted, so to speak, but good progress is being effected in that direction too, according to Dr. Gray. He is at the head of a staff that has constantly to be added to in order to provide needed schools and colleges where western educational methods are being taught and British sports and recreations participated in with the greatest enthusiasm.

Dr. Gray believes that soccer football will be the official pastime of India. The natives in many of the schools and colleges play it barefooted and are showing great dexterity and development in their play. Other games that are popular are cricket, rugby football, bowling, and all field sports. Some splendid runners are being developed. So far very little of any baseball has been played and the natives do not seem to take to the intricacies of the American game. Lacrosse has been introduced in several colleges and is making good headway.

According to Dr. Gray, athletics and physical culture has done more to break down the "caste" principle in India than anything that has been introduced in the last century.

Outside of a comparatively small and much despised section of what might be termed professional seditionists, the vast majority of India was intensely loyal to the British crown, Dr. Gray declared, and he has had ample opportunity to secure first hand knowledge on that point, even if such assertion were not amply proven by India's magnificent response to the empire's call for aid in subduing the Huns.

Mr. Newedd: "Well, we are beginning housekeeping, and I presume the simplest plan will be for me to give you a regular amount every week for expenses. Just reckon up what it will cost." Mrs. Newedd: "I could never do that in the world—so many things to count, you know; but let—me—see; Oh, I have it! I have thought of a much simpler plan." "All right, my angel! What is it?" "You add up what it will cost you for fares and lunches and give me the rest."

The first aid to good cooking.

Lea & Perrins SAUCE

The Original and Genuine WORCESTERSHIRE

TRAVELING ARTISTS WORK FOR SOLDIERS

Lieut. Hilliam and Entertainers at Princess Theatre; Cherniavskys Play To-night

If the size of last night's audience at the Princess theatre were taken as an indication of Victoria's interest in the welfare and happiness of Canada's soldiers, then it is to be feared the men would fare badly at the hands of the people at home. The Canadian Camp Recreation Fund entertainment, under the leadership of Lieut. B. C. Hilliam, is worth better patronage than the public gave last night, and the objects deserve stronger support than was given on this initial occasion.

Lieut. Hilliam comes back to Victoria more entertaining than ever. Many will recall him as one of "The 1915 Follies," a happy little group of entertainers who held the boards at the Royal Victoria theatre for some weeks last year. His numbers last evening were in a similar vein, consisting of musical monologues, prefaced with amusing little introductory remarks which never failed to put the audience in the most receptive of moods. The several numbers which the popular entertainer gave were great favorites. It might rob this evening's performance of some of its novelty to tell the stories. Suffice it to say that Lieut. Hilliam is one of the few entertainers who can make a piano "conversational." Impudence, drollery, mimicry, coquetry, melancholy, and mischief speak in a small voice from the keys, and in some instances the language is much more vivid than a spoken description could possibly be.

Early in the proceedings Lieut. Hilliam, after acknowledging his disappointment that the audience was so small, explained that the object of the Camp Recreation Fund was to secure money to buy baseballs, footballs, bats, and the like for the use of the soldiers in camp who often had to wait weeks for authority from headquarters to get them such things for their leisure hours. "Make the Camp Fires Brighter" was the slogan of the men who were working for the movement. Lieut. Hilliam sang the verses of this song, cleverly pushing in the name of the young composer of "Keep the Home Fires Burning," Novello, with a remarkable jingle of words to the same air. Afterwards came variations of the theme.

A clever raconteur, pianist and singer, Mr. Hilliam came on the stage three times with a fund of diverting numbers. Incidentally he brought in a trio, tenor, soprano and basso (supposed to suggest Mr. Watkin Mill) in "Kathleen Mavourneen," closing with a variation on the theme of "Tipperary a la Chopin, Liszt and Sousa."

Two other soldier artists are travelling with Mr. Hilliam on behalf of the Canadian Camp Recreation Fund. They are Sergt. Murgatroyd, of the 6th Field Company, Canadian Engineers, who opened the programme with pianoforte selections, "The Caliph of Bagdad," a military march, etc. A nimble pianist Sergt. Murgatroyd was in demand also for accompaniments, and greatly assisted on the programme in this way as well. Sergt. Adamson, who has a very pleasing and cultured voice, sang "Canada for Empire," "Laddie in Khaki" and "The Call of the Motherland," being unable owing to a cold to respond to an encore for the last mentioned.

Several local artists assisted, being heard for the first time at an entertainment of the kind. They were Miss Mona Misna, who sang "The Star" and "Rose in the Bud;" Miss Rowena Barker who gave "Amorella" and "Love Has Wings," and Miss Phyllis Clayton, who sang "The Valley of Laughter" and "Mifanny." All these ladies were a great addition to the programme, possessing pleasing voices and a nice presence which won them encores in each instance.

To-night the famous Russian trio, Messrs. Leo, Jan and Mischel Cherniavsky, who are to give a recital of their own on August 30, will play at the Princess theatre in connection with the second of these concerts. Mrs. Macdonald-Fahey will sing. The house is already practically sold out, and the management are very grateful to the gifted musicians who are giving their assistance on this occasion. The Saturday programme has not yet been completed, but assisting soloists will be Miss Polly Redfern and Miss May Mitchell.

MILITIA APPOINTMENTS.

The current issue of the Canada Gazette contains the following announcement of appointments to the militia regiment in this city: 88th Regiment (Victoria Fusiliers)—To be provisional lieutenants (supernumerary): Beaumont Boggs, gentleman, May 3, 1916; Gordon Glencoe Macdonald Hulme, gentleman, June 1, 1916; Montague Arthur Weaver Bridgman, gentleman, June 9, 1916.

TRANSFERRED TO 30TH.

The 30th Reserve Battalion, C. E. F., at Shorncliffe, has been materially strengthened by the transfer of a large section of the 88th Battalion to it.

St. Swithun, as his name should be spelt, had his claim to sway the weather vindicated in Symons's Meteorological Magazine for 1904 by the late Mr. W. C. Plenderleath, who proved that the weather is much more constant, in one direction or another, during the 40-day period following this anniversary. These pretty superstitions, which belong to the poetry of theology, seem to be rough generalizations from past experience, linked with some popular worthy. A supposed fixed spell of wet or dry weather that set in towards the end of July was associated by our Saxon ancestors with a beloved bishop, just as those "halcyon days" of November—in which Shakespeare firmly believed—were connected with St. Martin when his cult came over with the Normans.—London Chronicle.

VICTORIAN WOUNDED

PTE. R. E. AULT

Of the 62nd Battalion, who has been wounded and admitted to No. 4 Field Ambulance. He enlisted in the 88th Fusiliers in June, 1915, and later transferred to the 62nd, leaving Vancouver last spring. His wife and four children reside at 1353 Pandora avenue.

BANTAM RECRUIT SERVED IN FRANCE

One of Men Enlisted in 143rd Battalion Yesterday Was Driver of R. F. A.

Among the new Bantams enrolled yesterday, and eight were added to the ranks of the 143rd Battalion now completing its training for overseas service, was a veteran who has served at the front, George Mendes, who was a driver in the Royal Field Artillery. He went over from Woolwich with the earlier expeditionary force sent to France, "The First Hundred Thousand," and served in many battles. At Neuve Chappelle he was acting as the leader driver on a gun team when a shell scattered the horses of the team, killing five, and Mendes was hurled over twenty feet away, but was not injured. On another occasion at La Bassee he was going for rations with another driver when a shell broke overhead and a splinter killed his comrade. He has had many stirring experiences. He had his arm frozen during the first winter campaign, and was slightly wounded. Being a seaman he was given his discharge after being wounded and returned to duty on a British merchant ship. He has since been keenly anxious to return to the field, and when he recovered his health he decided to take steps to do so. The steamer on which he was engaged is now discharging at Port Arthur, Tex., and when it arrived there Mendes left and paid his fare to Victoria. He arrived here yesterday afternoon and promptly enlisted in the Bantams, together with another Britisher, who came up from the United States to enlist. Four other recruits arrived from Vancouver and one from Edmonton.

The Bantams are now about 930 strong, and it is anticipated that as soon as the battalion reaches full strength it will be ordered overseas. In point of seniority it now ranks second, only the 131st being ahead of it in this province, and the 131st is about ready to proceed. It has been suggested by many people interested in the work of building up this battalion that arrangements be made to draft the small men necessary to fill up its ranks from those battalions now in training at Vernon. It has been generally understood for some time past that the majority of the battalions now being formed will be sent forward as drafts, and it is urged that if the short men who have been enlisted with them were drafted now the Bantams would be made ready in short time for dispatch overseas.

The band of the Bantam Battalion was in town from Sidney yesterday and game several street concerts. The people of Victoria have had little opportunity of hearing this fine military musical aggregation and it attracted considerable attention. The recruiting squad took advantage of the visit of the band to work, but did not meet with much success.

The second issue of the Bantam Review, the publication of the 143rd Battalion, will appear this afternoon. This neatly-printed and newsy little publication has as its frontispiece this week a reproduction of the Punch cartoon, "Well done the new army," drawn in commemoration of the part played by Kitchener's army—in which there are so many Bantam Battalions—in the recent fighting in France.

Jones's opinion of himself as a golfer was very much greater than his skill warranted. Recently he was invited to play on a certain famous Scottish ground, as a visitor. Armed to the teeth with clubs of all sorts and sizes, he set off, and, followed by a caddie, proceeded to play. He buried his ball in every bunker, gully and bit of landscape, and muttered naughtily. After half an hour of it, he turned to his silent caddy. "Really," he murmured ingratiatingly, "this is the most difficult course I have ever played on." "Hoo did ye ken?" replied the lad in scorn. "Ye hevna played on it yet."

Have you smoked "Noblemen" Cigars lately?

ARION CLUB CONCERT DRAWS BIG CROWD

Many Listen to Good Programme of Music at Parliament Building Grounds

The grounds at the Parliament buildings last evening swarmed with people who revelled in an opportunity to hear good music in the open. The Arion Club was giving its choral concert in aid of the Victoria and District Red Cross funds. A number of ladies went about between the numbers and took up a collection in aid of the good work, and subscriptions totalling about $200 were taken during the evening.

The Arion choristers were in good form, and under the baton of F. J. Sehl did some splendid work, notably in "Men of Harlech," "King Wittaf's Drinking Horn," and "The Soldiers' Chorus from Faust." Other numbers were very pleasing, and "O Canada," arranged by E. H. Russell, was a fine introductory selection. At the last Mrs. Macdonald Fahey, who gave great assistance on the programme with numbers, sang "Rule Brittannia," with the Arion Club for chorus. Other numbers which she gave, her big soprano ringing out in a very effective way, were "Heigh Ho, the Sunshine!" and "Men of the Northern Zone," the verses of which were written by W. J. Dowler. The Arion Club joined in the chorus, and in response to an encore Mrs. Fahey sang "Coming Thro' the Rye."

The following is the programme in full:

O Canada .... Arranged by E. H. Russell
Artillerist's Oath .... Adam
Soldier's Love .... Kicken
On the Sea .... Dudley Buck
Men of the Northern Zone..W. J. Dowler
(Dedicated to Lieut. Jack Dowler, of the 11th C. M. R.)
Mrs. Macdonald Fahey and Chorus.
Men of Harlech.....Arranged by Brewer
Intermission.
The Two Grenadiers .... Schumann
Arranged by Robinson.
King Wittaf's Drinking Horn ... Hatton
The Bantams, adapted from the Elfman .... Gibson
Vocal Solo—The Star .... Rogers
Heigh Ho, the Sunshine .... Phillips
Mrs. Macdonald Fahey.
Altar of Truth .... Mohr
Soldier's Chorus from Faust ... Gounod
Rule Britannia ....
Mrs. Macdonald Fahey and Chorus.
God Save the King.

BELGIUM AND WILHELM—1916.

Beneath his heel our fair land lies,
We bend no suppliant knee;
No "Ave Caesar" from our lips
Greets tyrant such as he.

Nor age nor innocence could stay
The tempest of his wrath;
As thro' a trusting nation's heart
He hew'd his ruthless path.

But now the trembling tyrant sees
The writing on the wall;
Spent now his beserk fury, he
Goes tott'ring to his fall.

Sweetly shall peal the bells of Bruges,
And boldly from Malines
A greeting to our gallant king,
A welcome to his queen.

O Belgium! thy poor graves are green,
And green shall ever be
The memory of thy noble sons
Who died for liberty.

INDIGESTION DYSPEPSIA GASTRITIS STOMACH ULCERS

Why Magnesia Should Be Taken After Every Meal.

A flushed face may be the first noticeable symptom of indigestion, but disregard this warning and soon there is unmistakable pain, for indigestion is a progressive ailment. At first the symptoms may be relieved by pepsin, bismuth or soda, but these things do not overcome the excessive acid in the stomach which is usually the underlying cause of the trouble, and consequently the acid accumulates and the occasional attack of indigestion becomes chronic dyspepsia. The dyspeptic is always particularly liable to gastritis and gastric ulcers in the stomach are only too often the forerunners of peritonitis, stomach cancers and death.

For this reason physicians place much importance upon keeping the stomach free from harmful acid and are continuously advising chronic dyspeptics as well as those who only suffer occasional attacks of indigestion to keep a little pure bisurated magnesia handy, and to take a teaspoonful in a little water after every meal. Practically any druggist can supply you with bisurated magnesia and all stomach sufferers are advised to get an ounce or so and give it a trial. Care should be taken to tell the druggist to give you magnesia in the bisurated form as other magnesia preparations, while valuable as laxatives and mouth washes, are not recommended for the correction of stomach acidity.

An article on the sound of big guns appears in the new number of the Quarterly Review. The writer, Mr. Charles Davison, tells us of an old report that the firing at Waterloo was heard in the eastern districts of Kent, a distance of between 130 and 140 miles. When the Kearsage sank the Alabama, of Cherbourg, the shooting carried to Bridgewater, 125 miles distant. If gunfire penetrated thus so far, when its volume was so much less, there need be no surprise that people in different parts of the country have been hearing the echo of the volcanic battles on the Somme. But probably it is the motion of sound waves, rather than any hearing of noise, which has disturbed our bird life.—London Chronicle.

At Heidelberg application has been made to the authorities for fourteen persons, who emigrated to America in 1852, to be declared officially "dead;" one member of the party, if he is still alive, will be a gay and frisky youth of 137.
